OUR MISSION

At Business Interruption Consulting, LLC, our mission is to provide expert forensic accounting and advisory services, ensuring our clients receive thorough, accurate, and defensible financial analysis. We specialize in claims preparation, economic damages, financial forensic investigations, and construction dispute resolution, offering clear and reliable guidance throughout legal processes. Our commitment to integrity and meticulous execution empowers our clients to achieve fair and just outcomes in their financial and legal challenges.

At Business Interruption Consulting, we provide comprehensive forensic accounting services for auditor malpractice investigations. Our team specializes in identifying and analyzing instances where an auditor may have failed to meet the required professional standards, leading to financial harm for the business or its stakeholders. We conduct thorough reviews of audit reports, financial statements, and audit work papers to determine if proper procedures were followed and whether negligence or oversight occurred in the audit process.

Our investigation services include evaluating the auditor's role in misrepresenting financial information, missing key financial discrepancies, or failing to detect fraud. We assess the financial impact of these errors or omissions, calculating the economic losses that resulted from the malpractice. Through detailed forensic analysis, we provide clear, evidence-based findings that help clarify the extent of the malpractice and the resulting damages.

By partnering with legal teams, we provide critical support in auditor malpractice litigation, delivering expert testimony, financial analysis, and comprehensive reports. Our goal is to ensure that the financial harm caused by auditor negligence is fully understood and quantified, enabling our clients to pursue appropriate remedies through settlements or legal proceedings. We are committed to helping our clients achieve just outcomes by providing reliable and precise forensic accounting services.

- ✓ Investigate whether auditors adhered to professional standards.
- ✓ Identify misrepresented financial information or missed key discrepancies.
- ✓ Assess economic losses caused by audit errors or omissions.
- ✓ Provide expert analysis and testimony in auditor malpractice litigation.
- ✓ Support clients with comprehensive financial reporting and quantification of damages.
