## Expert Witness Testimony

At Business Interruption Consulting, LLC we know that our forensic accounting results often face intense scrutiny. That's why we approach each project with the expectation that our findings might be needed in mediation, arbitration, or court. This drives us to plan and execute our work meticulously, ensuring our conclusions are solid and defensible.

We have a wealth of experience providing Expert Witness Testimony for law firms on a range of issues, including economic damages, complex insurance claims, and financial investigations. Our testimony has been presented in both state and federal courts, as well as in mediation and arbitration settings. Our expertise helps courts and arbitrators understand the financial details of each case, making our testimony a vital part of many legal proceedings.

Expert Witness Testimony is a natural part of the services we offer, whether it's claims preparation, economic damages, financial forensic investigations, lost profits and lost earning capacity assessments, or construction defects and delay claims.
