Although this class was originally designed for IET® practitioners, NO IET® experience is necessary or required to attend.

During this class, you will experience connecting with NINE different angelic energies. Some you will already be familiar with, while others may not be so much. The purpose of this class is to assist you in discerning the energy "signature" or vibrational frequency of each angel. During your connection with each of these angels, you may be shown or told something that will impart support or insight for your life's spiritual path.

Each attendee will receive a copy of our special illustrated Healing Angels of the Energy Field® Class Workbook and a certification suitable for framing.
