RE: Mike Shew-Business Retention Coordinator

I would like to thank everyone involved in assisting our manufacture with programs like the Business retention program. You have set our company to aspire for excellence. I found the new perspective given by Missouri Enterprise to be the small push we needed for improvement. I imagine most small business like ours remain so pressed to get the most out of old solutions that they no longer recognize there is another way. We need more programs that offer assistance and solutions rather than the punitive enforcement approach. Please continue to expand these programs. I believe it to be money well spent.

I would also like information on other such programs.

Sincerely
Vince Branaman ,President
