RE: Mike Shew – Business Retention Coordinator

I would like to express my appreciation for the services of the Full Employment Council and Mike Shew in working with our members. As a business organization the success of our members is paramount to us. During these challenging economic times the services Mr. Shew and the FEC provides is an invaluable resource to our members.

Several of our manufactures have benefited from the outside perspective FEC provides with your feasibility study services. One member is in the process of his study and two others have been completed. The two completed have expressed how impressed they were with the efficiency and professionalism of the staff and both have found the studies beneficial. Mr. Shew is now working with some of our retailers who are struggling.

We have lost some members due to the economy and others are hanging on the edge. Having a resource to offer these businesses shows the value of the chamber in connecting businesses with people who can help and demonstrates our concern for them.

Mr. Shew does an excellent job in working with our members and his expertise along with all staff of the FEC is greatly appreciated.

Sincerely,  
Ann Britt  
Executive Director
