- Manual Air Up & Down Suspension
- Backrest Recliner
- Fore/aft Slider
- Slide Type Bottom Cushion Extension
- Angle Type Tilting Mechanism

TC300

Two major additional features compare to TC200 Series seat.

#1 Memory Height System

#2 Manual lumbar support

#1 is the "**Memory Height System**", Other word "**Auto Leveling Suspension System**", which shows you from tutorial video and this system absorb all impact from chassis & cabin. The main beneficial of this system is that maintain same height level as driver set up previously, which helps to minimize your up & down movement for better stability and maneuverability while you driving. This system will adapt any condition of the road, it helps to make more focus & precise control when you operate your vehicle

Fully Adjustable
Dual Armrest
as Standard Option

#2 TC300 series seat uses "**Mechanical type lumbar support system**" which is not only work better, but also this system is almost **maintenance free**, compare to air bleeding type air chamber lumbar support (most other seat manufacturers used)

Features & Specifications

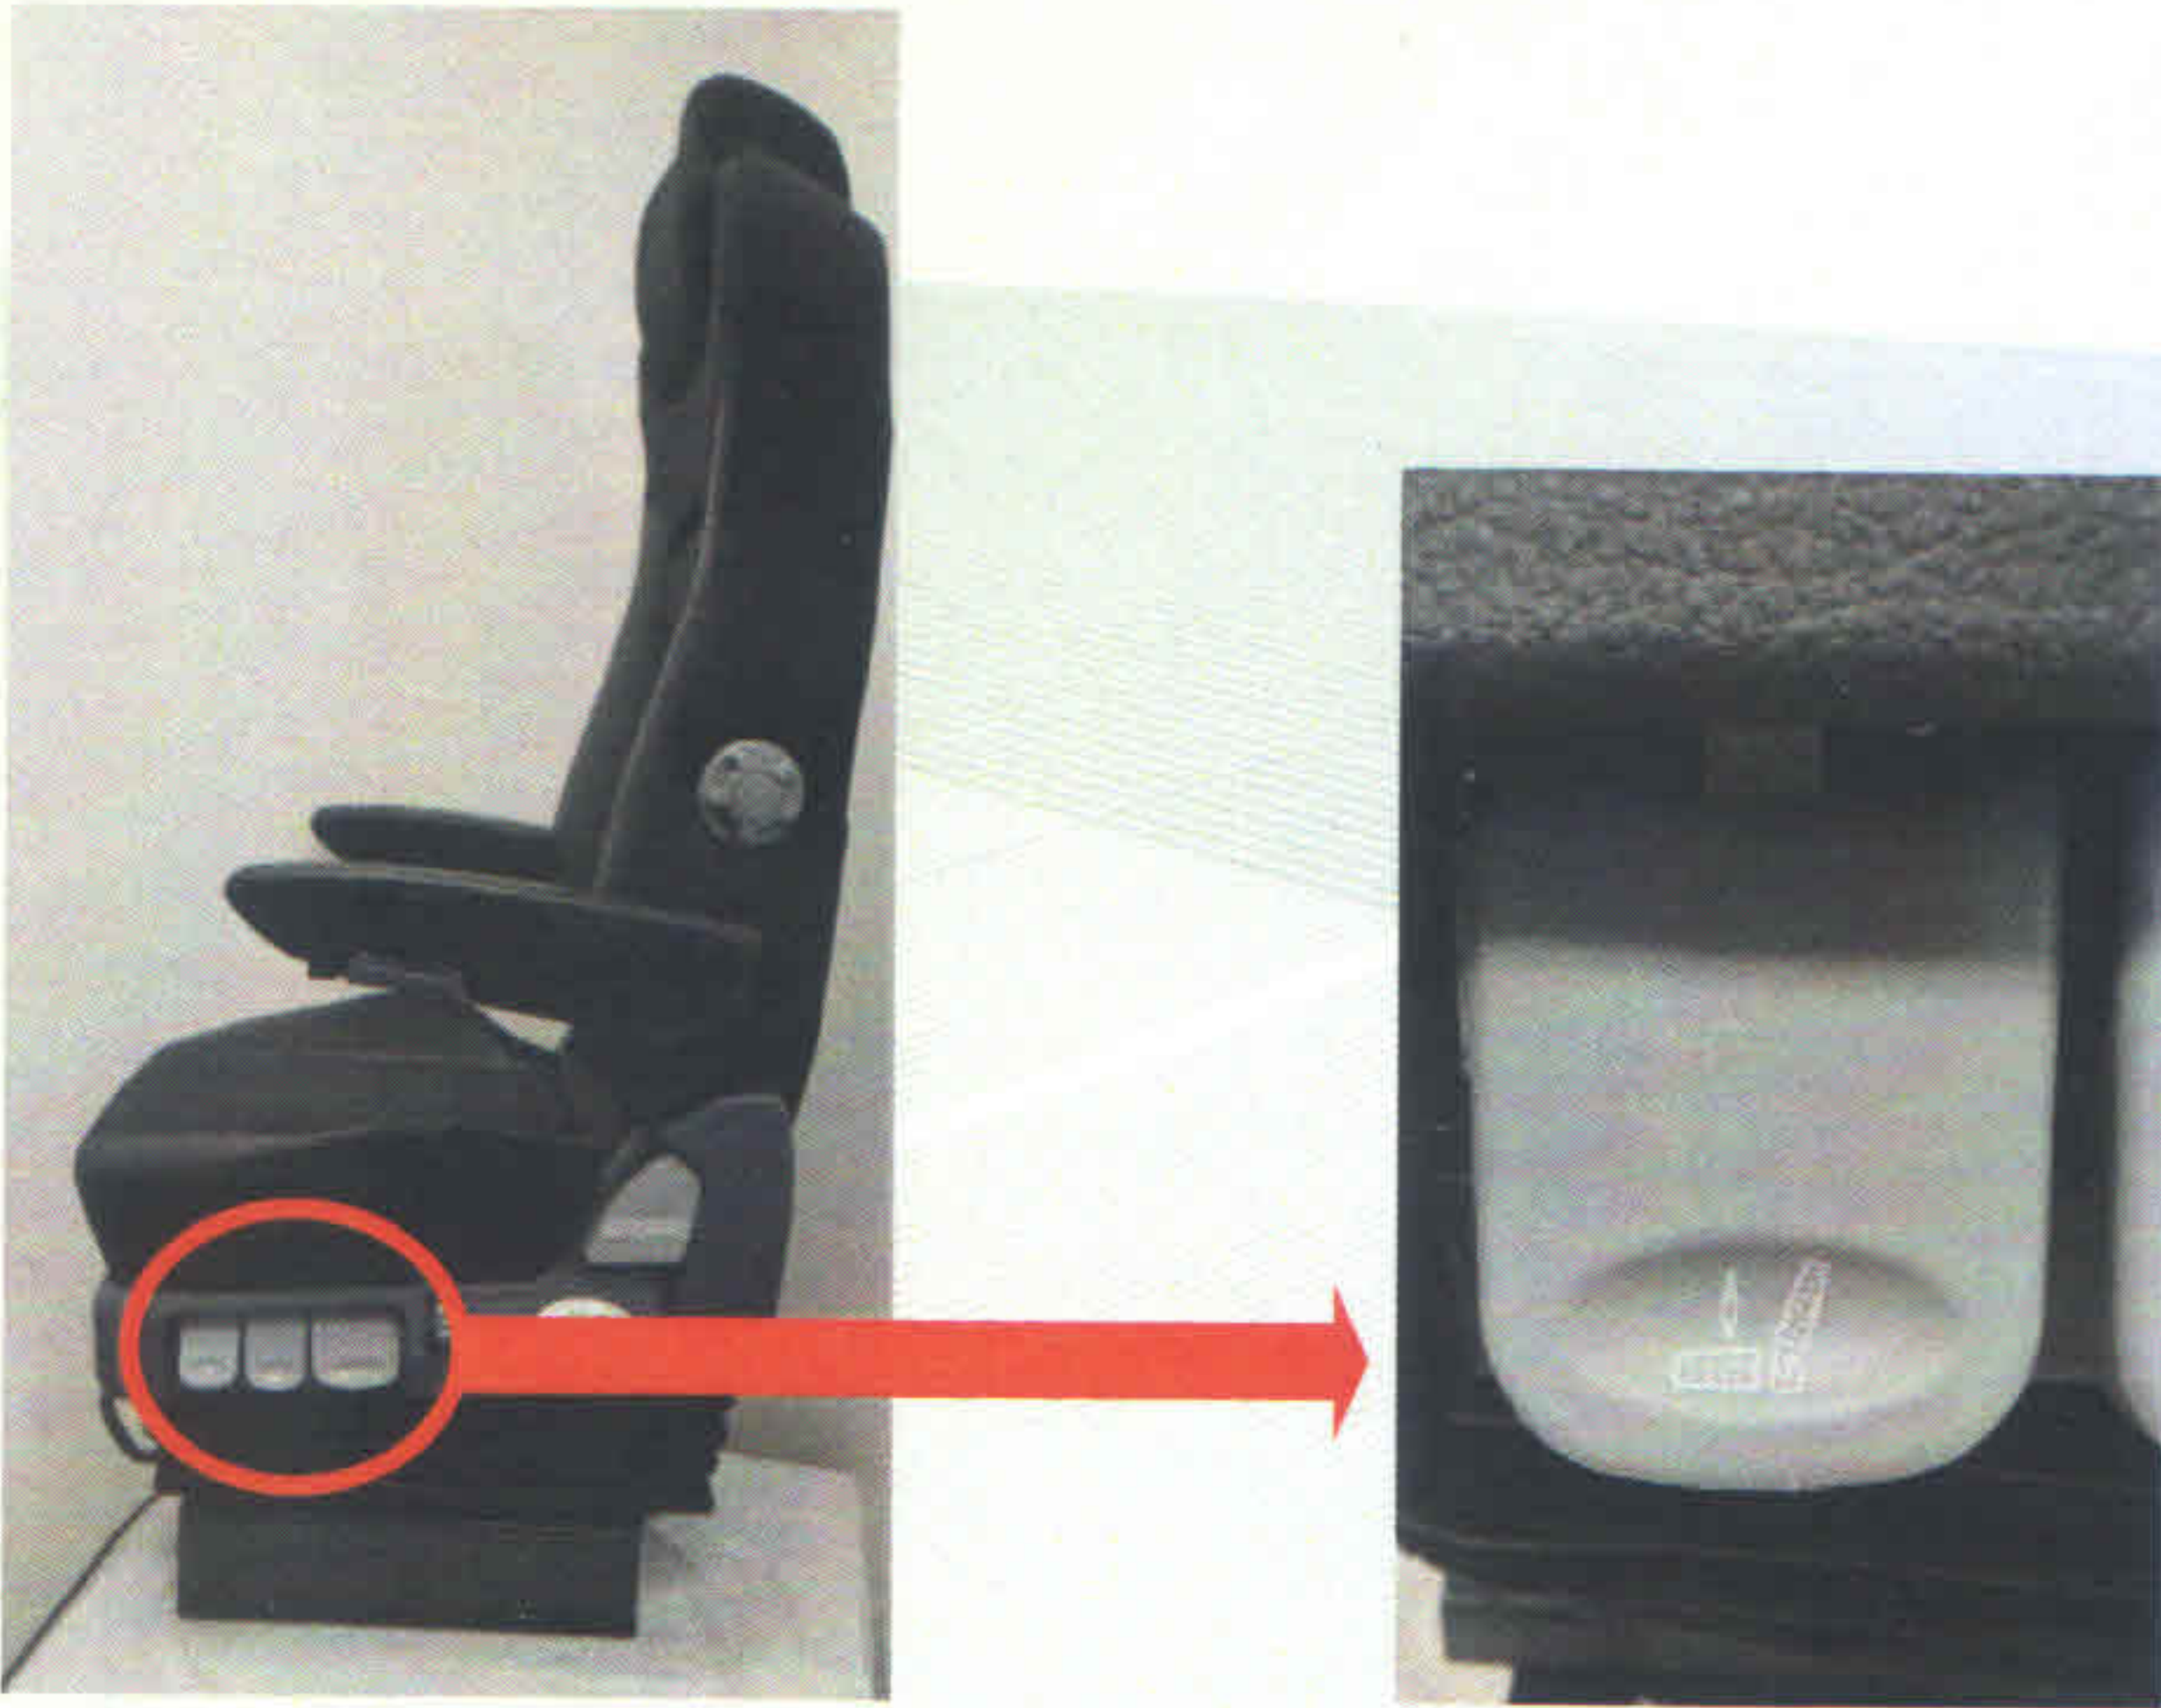

- Memory Height Adjust/Auto Leveling Suspension
- Mechanical Lumbar Support
- Fore/Aft Slider
- Backrest Recliner
- Fully Adjustable Dual Armrest
- Slide Type Bottom Cushion Extension
- Angle Type Tilting Mechanism

TC400

Has another Two Additional features come as standard compare to TC300 Series seat.

#1 Adjustable Shock Absorber

#2 Quick Down Air Release System

#1 Adjustable Shock Absorber is another unique feature on Prime TC Series Seats.

It is working for everyone, every time, and every load conditions. Every driver has their own personal taste of comfort set up depends on road condition and own preferences. Our Adjustable Shock Absorbing system is able to set up a different damping force by left side scroll lever adjustment, which can conquer your road condition depends on your driving style.

#2 Quick Down Air Release System

Every time you hop on your seat, many of you should adjust your seat every single time when you get on to adjust height of your seat position or to get off from truck easily. Your beneficial of TC400/500 series, you don't need to spend your time to adjust your seat anymore. Every time when you access to your truck, this system allows you to stay in same level of height where you set up previously. Or, Release all air from your air chamber that makes you to easy exit when you getting off from your vehicle. It gives you such a freedom when you hop on or hop off from your seat.

Features & Specifications

- Adjustable Shock Absorber
- Quick Down Memory Height Adjust /Auto Leveling Suspension
- Backrest Recliner
- Fore/Aft Slider
- Mechanical Lumber Support
- Fully Adjustable Dual Armrest
- Slide Type Bottom Cushion Extension
- Angle Type Tilting Mechanism

TC500

In addition on TC400 Series & TC500 Series seats have **"Built in Three Point Harness System"**, which allows you to avoid any "Seat Belt Harness Installation". It could go "Truck, Bus, RV, Heavy Duty Equipment, Small or Medium Truck, Trailers, Passenger Side of Van, and so on". Those models have built in seat belt system that doesn't have ICP/Tethering Bar, which save a bottom floor space and gives you freedom of installation.
