

Sustainable Energy Solutions

"These wind & solar projects will be the great examples of public and private partners working together to benefit the community"

"Renewable energy options are a big part of our future, so we're excited to work with Blackrock Park Committee and Louth County Council to expose more residents throughout the county to the benefits of Renewable energy in the park."

Through our appointed contractor, Arbarr are in a position to offer the solution to supply Ground works, Installation & Maintenance for above project as a one stop turnkey package.
