Simultaneously

MaxiCharge Technology applied with bi-directional inverter

LOW COSTS

EFFICIENT AND FLEXIBLE

SMART AND ROBUST

SAFE AND RELIABLE

THREE WAYS TO CHARGE

FROM THE SUN: Recharge from the sun by connecting a compatible solar panel. Charge times are dependent on the size of the solar panel. Using 200W/400W of portable solar panels, in ideal conditions, you can fully recharge Power Silos AR41188/AR41182 in 6-8 hours of sun.

FROM THE WALL: Plug it into the wall. Fully recharges in 1.5hrs/1.8hrs hours using the included Power Supply AC Wall Charger.

FROM THE CAR: The Arbarr Portable Power Silo can be charged by plugging into your 12V adapter using the 12V Car Charging Cable.

BACKUP POWER IS MORE THAN CREATURE COMFORT. IT'S SURVIVAL.

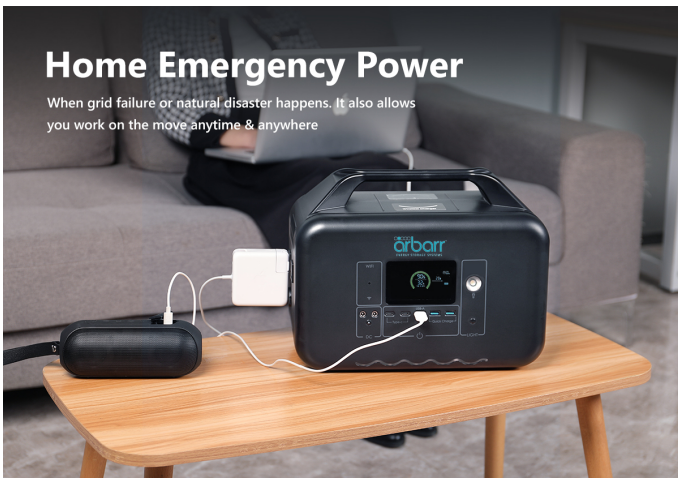

When faced with challenges, portable power solutions give you and your family choices. Lithium power stations that are solar rechargeable means you can backup essential circuits in your home to power through short and long-term power outages. Keeping lights, communications, and essential medical devices humming along ensures not just the comfort but the well-being of the folks that matter most to you. Here are just a few of the devices a 2000W Power Silo can keep powered during an outage:

- | | |
|--|---|
| <ul style="list-style-type: none"> ➤ Smartphones, modems, and computers ➤ Lighting ➤ Fridges ➤ Medical devices like a CPAP ➤ Security cameras ➤ Microwaves, grills, stoves | <ul style="list-style-type: none"> ➤ 230V 10A ➤ Frequency 50-60Hz ➤ 48V System ➤ LiFePO4 Battery ➤ Portable ➤ Over Charge, Discharge, Load protection |
|--|---|

With Arbarr Portable Power solutions, you can power up to four essential circuits during outages so your family doesn't have to choose between survival and comfort.

Home Emergency Power

When grid failure or natural disaster happens. It also allows you work on the move anytime & anywhere

AR41188 - 1000W

PORTABLE POWER FOR YOUR VEHICLE
