

Philips
Professional TV

43" MediaSuite
powered by Android™

43HFL5014

One step ahead

With Chromecast built in

With this powerful Philips Professional TV, vibrant picture quality is only the beginning. Chromecast built in and easy access to the Google Play Store give you the edge when it comes to engaging guests.

Android-powered. Ready for anything.

- Chromecast built in. Cast content to the big screen
- Android updates. Always the latest functionality
- Google Play Store. Find it. Watch it. Play it
- Be seen. Brand the TV's UI with your logo
- IPTV. Provide channels over IP. Install your own UI

Rapid installation. Total control.

- Instant initial cloning. Rapidly install your Pro TVs
- CMND and Control. Operate, update, maintain
- CMND & Check-in. Personalise every experience
- Analytics on board. Get stats on what's being watched
- AppControl. Install and manage apps remotely and securely

Cost-effective. With multilingual support.

- 3 year warranty, extendable to 5 years
- Low power consumption

PHILIPS

Highlights

Powered by Android

Android-powered Philips Professional TVs are fast, versatile and easy to navigate. The TVs are optimised for native Android apps and you can install web apps directly to the display, too. Automatic updates ensure apps stay up to date.

Chromecast built in

Enable hassle-free wireless casting of movies, presentations and more from smart devices (mobiles, laptops, tablets) to your Android-powered Philips Professional TV. Chromecast is cost-effective, requires no extra hardware and is secure for professional use. Users simply tap the Chromecast icon on their smart device to start streaming content from thousands of cast-enabled apps — their smart device becomes the remote.

Google Play Store

With one-touch access to the Google Play Store, it's easy to add apps, games, music,

movies and more to your Philips Professional TV.

UI branding

Your Philips Professional TV offers a clear, easy-to-navigate user interface (UI), which you can customise with your own branding. Easily add your logo and colours to the search bar to increase the visibility of your brand.

Analytics

From hotel chain to sports bar, monitor how your Android-powered Philips Professional TV is used. Find out how often specific channels are watched. Test the effectiveness of your advertising. Get the information you need to manage costs effectively, with easy access to screen-time data.

AppControl

Take full, centralised control of the apps installed on your Philips Professional TVs.

AppControl lets you install, delete and manage apps on selected TVs or your entire network. Giving you the ability to offer personalised experiences to your guests and customers — no matter how many TVs you are managing.

CMND and Control

Run your display network over a local (LAN or RF) connection. CMND & Control allows you to perform vital functions like controlling inputs, updating software and monitoring display status — whether you're in charge of one TV or more.

CMND & Check-in

Make visitors feel welcome. CMND & Check-in lets you use individual information—such as name and language spoken—to create a personalised experience. Whether you're adding special touches for hotel guests, streamlining the billing process or offering multiple channel packages.

Specifications
