

JET Transport Additional Capabilities

Warehousing

When it comes to storage and distribution, JET Transport understands each customer may have unique needs. JET's facility is a 75,000 Sq. Ft. warehouse located in the heart of Chicago's commercial and industrial centers, just minutes from downtown, Midway airport, and close to every rail carrier. The physical characteristics of our facility includes single-selective-pallet racking, multiple docks, in-rack sprinklers, and the ability to be configured to meet your needs.

Transloading

If you are in need of Transloading or Crossdocking of a single load or would like to establish a recurring move, you will find JET's location provides a clear advantage. We believe this is a valuable service that can reduce our customer's transportation costs and expedite delivery.
