

**25 years of cooperation with the private
and public sector for the carpet
industry and its employees**

Rugmark India – Carpets without Child Labour

The Rugmark Foundation India is the founder of the whole Rugmark system. We introduced the regular control and supervision system in the early nineties. Since then we have been continuously carrying out systematic controls.

The RUGMARK Foundation India was incorporated in September 1994 under sec. 25 of the Indian Companies Act of 1956, as a private, voluntary, non-profit entity.

The chairperson is Mrs. Maneka Gandhi – Member of Parliament (former Indian Union Cabinet Minister for Women & Child Development in the Government of India).

To provide quality education to children freed from child labour, RUGMARK is running 6 schools and a rehabilitation center (Balashrya) in the carpet belt of India. The children are getting formal education free of cost, apart from basic vocational training in different trades in the Rugmark School. They are provided free uniforms, books, notebooks and stationery. Medical care is provided by a doctor who goes around with a small medical van. This work is extended to many villages by organization of regular health camps with provision of medicines and needed medical devices.

More than 10 million carpets have been labelled and exported from India till now.

The Rugmark labels are issued only by Rugmark India. There is no substitute of the Rugmark label.
