

Mini Medics

First Aid – Mini Medics (TTC ref: FA10)

This course has been designed for and is aimed at children aged 8 to 11 years. The course includes basic First Aid and Defibrillation.

The literature and training style is adapted to be more appealing and appropriate to younger first aiders.

The Training Cabin uses child-friendly printed literature and also incorporates use of their multi-coloured zebra, Vincent, to encourage visual enhancement and engagement for children on the course.

Good for: Schools, children's clubs and parent and child clubs wishing to incorporate an aspect of first aid into their environment and curriculum.

- Assessment: None – attendance only although quizzes may be incorporated into learning
- Accredited through: NUCO although it is a non-regulated qualification
- Certificate: Mini-medics certificate included
- Duration: **3 hours**
- Qualification: **Non-regulated qualification**
- Delivered at your place of work or one of our venues
- Discount for groups available (subject to booking 6 or more on course)
- Maximum places on course: 16
- Ages course designed for: 8 to 11 years
