

PREFABRICATED GLASS BLOCK WINDOWS

IMPERIAL
•
METRIC

A prefabricated glass block window is an ideal application for any new home construction or remodel. Manufactured with **real glass** from **Seves Glass Block**, the leading glass block manufacturer in the world, ensures you to a secure, reliable, and durable alternative to any standard or acrylic window. Encased within a vinyl frame extrusion and ready to install on site, these windows can be easily positioned above garden tubs, in shower areas, kitchen & utility rooms and as side window for doorway entrances. From a numerous selection of distinct and elegant patterns to choose from, remember to choose a real glass block prefabricated window for your next construction project. Available in Imperial or Metric sizes.
