

# REAL Glass Block Vinyl Frame Windows

Prefabricated with structural silicone and a patented vinyl spacer system, these glass block window units are manufactured and engineered to withstand the most extreme of conditions. This patented system offers far superior quality, craftsmanship and durability than all other glass block or acrylic block windows currently in the market. Designed to offer maximum light, increased security and a range of privacy, these units can enhance any open space with a charming sense of beauty, elegance and a timeless classic look.

## Features & Benefits

- Structural silicone bonding provides beauty and an "all glass" look
- Prefabricated as pre-assembled windows with Nail-Fin for easy and quick installation
- Enhanced security, energy efficient and greater value than conventional windows
- 100% Real glass, no fading, cracking, or discoloration like Acrylic block
- Various natural light transmission, privacy and visibility range

## Custom Options

- Over 25 distinct patterns in both Imperial & Metric sizes made by [SEVES](#) Glass Block
- Can be custom built in an array of sizes to meet project needs
- Almond or White vinyl frame color options
- Mix and match patterns or colors for truly unique custom designs
