

# Weather is unpredictable

## Be prepared with Clear Choice® Hurricane Impact Glass Block Windows.

Minimizing storm damage to homes and buildings is crucial, especially in hurricane and extreme weather prone areas.

Clear Choice® Hurricane Impact Glass Block Windows are designed to protect homes and structures from the extreme elements caused by hurricane force winds. Constructed to minimize damage and increase security, these window units are the ideal application for hi-impact weather zones.

### Test Results

- TAS 201, 202, 203
- Large Missile Impact - Approved
- Texas Department of Insurance Approval (WIN-2669)

# Hurricane Impact Glass Block Windows

---

## Hurricane Impact Glass Block Windows

Clear Choice® Hurricane Impact Glass Block Windows are an ideal solution for applications where both protection against hurricane-force elements and light transmission are critical considerations. These Hurricane Impact Glass Block Windows have passed the large and small missile impact tests recognized by the Texas Department of Insurance (TDI).

Hurricane Impact Glass Block Windows offer the same privacy and beauty of glass block. The windows consist of a pre-fabricated SEVES BSH-20 Glass Block panel surrounded by a welded vinyl frame. Clear Choice® Hurricane Glass Block Windows are easy to install and maintain, and the durability and strength of the glass block eliminates the need for storm shutters.
