

642690

26" Rapid Box W/Magnetic Front Cover (Grey)

Suggested Retail: \$499.99

Made in China

Inventory Code: 99913

Here's a space-efficient, time-saving portable 26-inch slant front toolbox that stands up to life on the road and in the shop. This truck and job box is built for harsh handling and outdoor environments. Like all Powerbuilt products, it offers the strength, precision and durability you demand. For work and play on the road, on the farm, in the trailer, shop and garage, this is your go-to tool box. With details like fully-welded seams, premium powder-coating and chrome-plated hardware, this portable slant front toolbox might outlast you. Need to store lots of tools? No problem! This box holds 94 sockets, up to 50 combination wrenches, 9 screwdrivers and 19 ratchets or extensions. A removable socket tray offers even more versatility and flexibility on the job. And there's extra open storage space for the stuff that's just as important as tools, like gloves, cables, fluids and lunch! Need even faster access to your tools? Attach them to the 3 magnetic strips built into the lid to keep them close at hand. With a heavy-duty lock and weather-sealed lid, you can confidentially leave your tools in the box without worrying about rust or casual theft.

- 3 magnetic tool holder bars embedded into lid
- Heavy duty lockable polymer lid and powder-coated 16 gauge steel cabinet with fully welded seams
- Weather stripping on inside of lid keeps tools clean and dry
- Gas strut opens lid smoothly and holds it open securely
- Recessed side handles save space
- Chrome plated hardware looks great and adds weather protection
- Gunmetal gray hammertone finish with matte black lid
- Box Dimensions: 27-3/4"(W) X 18-1/2"(D) X 19-1/4"(H)
- 1 Year Warranty

Billy Club Universal Lug Wrench SAE/mm Gen-2

Suggested Retail: \$49.99

Made in China

Inventory Code: 4962

Powerbuilt Billy Club universal lug wrenches make tire changes faster, easier, and safer. The patented design works like an L-type lug wrench to break loose stubborn lug nuts. Then, by sliding the socket drive head to the center, you can quickly spin off loosened lug nuts. Reverse the procedure to install a new tire, then get back on the road! Billy Club comes complete with two double-sided lug nut sockets to fit virtually every passenger vehicle on the road today. It also includes a socket extension to help reach lug nuts on deeper dished wheels. And the sockets and extension store in the handles so everything is there when you need it!

- Uniquely designed lug wrench has a sliding t-bar for additional leverage when needed but can be center positioned to spin off lugs quickly.
- The new gen 2 unit now includes the improved locking function that securely locks the drive head in place.
- Stores easily in anywhere in the vehicle and the Powerbuilt red, black & chrome color configuration is a sure hit.

620479

2 Ton Xtra Low Profile Garage Jack

Suggested Retail: \$189.99

Car too low for a regular jack? Give the Powerbuilt Extra Low Profile 2 Ton Floor Jack a try! With a starting height of 2-3/4 in., this precision jack can slip under low profile vehicles with ease.

The strong safety bar keeps jack from lowering once it has been raised to maximum height (15-1/2 in.), eliminating the need for a jack stand. It's perfect for modified cars, classic cars, unibody cars or any other vehicles with difficult or low clearance.

Made in China

Inventory Code: 47021

- Stylish, innovative and affordable, Powerbuilt products meet or exceed ASME and PALD standards.
- Precision made for use with ultra low or unibody cars
- Lifting range from 2-3/4 in. to 15-1/2 in.
- Strong safety bar keeps jack from lowering once it has been raised to maximum height
- Stylish, innovative and affordable, Powerbuilt products meet or exceed ASME and PALD standards
- One year warranty

620622

3000Lb Triple Lift Garage Jack

Suggested Retail: \$179.99

Made in China

Inventory Code: 42421

Get rid of your floor jacks, transmission jacks and ATV jacks. The 3000 Lb. Triple Lift jack is three jacks in one! This innovative jack has a patented design that lets you lift cars, trucks, motorcycles or ATVs with ease.

The Triple Lift slashes the expense and hassle of purchasing, maintaining and storing multiple jacks and jackstands. It's the one jack that easily lifts almost anything with wheels, and works on vehicle transmissions and differentials too.

The secret to the Triple Lift is the patented design that features both a removable lift saddle and padded lift rails. This flexible design allows the Triple Lift to adapt to multiple types of vehicle frames.

A locking safety bar holds the jack in place once the vehicle is raised, which eliminates the hassle of supporting a lifted vehicle with jack stands. Built-in tie-down loops make it easy to secure motorcycles in place for added stability.

You can also use the Triple Lift to safely lift Unibody vehicles. The precision locking design keeps the jack from lowering once it has been raised, eliminating the need for a separate jack stand.

Stylish, dependable and affordable, Powerbuilt products meet or exceed ASME and PALD standards.

- Innovative 3,000 Lb. Triple Lift jack lifts cars, trucks, motorcycles or ATVs
- Lifting range from 4-3/4 in. to 17 in.
- Strong ultra-wide chassis for extra stability
- Precision locking design keeps jack from lowering once it has been raised
- Stylish, dependable and affordable, Powerbuilt products meet or exceed ASME and PALD standards
- One year warranty

620470

4000Lb Unijack

Suggested Retail: \$59.99

Made in China

Inventory Code: 4293

The Powerbuilt Unijack is the world's first and only portable jack designed to safely lift and hold both regular and unibody cars and trucks.

All Unibody vehicles have factory-approved lifting points to prevent damage when jacking up the vehicle. But with a conventional jack, it's challenging to properly lift and hold a unibody vehicle, because once the vehicle is raised with a jack, there's no space left to add a jackstand.

The Powerbuilt Unijack solves this problem with an ingenious design that both safely lifts and securely holds a Unibody vehicle using a single lift point. The Unijack offers both concave and flat lifting surfaces to accommodate a wide variety of lift points.

The 4000 pound Unijack offers lift range from 8-5/8 to 18-3/8 inches, which makes it perfect for sedans, minivans and crossovers.

Stylish and affordable, Powerbuilt products meet or exceed ASME and PALD standards. One year warranty.

- Patented design both lifts and holds by combining a bottle jack with a jack stand in one unit
- Safe for lifting Unibody and body-on-frame vehicles
- Wide flat base adds stability and reduces "sinking" on softer surfaces
- Stylish and affordable Powerbuilt products meet or exceed ASME and PALD standards
- One year warranty

640912

3 Ton All In One Truck Lift Jack

Suggested Retail: \$69.99

The Powerbuilt 3 Ton All-in-One Unijack is the world's first and only portable jack designed to safely lift and hold both regular and unibody cars and trucks.

All Unibody vehicles have factory-approved lifting points to prevent damage when jacking up the vehicle. But with a conventional jack, it's challenging to properly lift and hold a unibody vehicle, because once the vehicle is raised with a jack, there's no space left to add a jackstand.

The Powerbuilt 3 Ton All-in-One solves this problem with an ingenious design that both safely lifts and securely holds a Unibody vehicle using a single lift point. The Unijack offers both concave and flat lifting surfaces to accommodate a wide variety of lift points.

What's more, it eliminates the cost and hassle of a floor jack, it's easier to lift, move and store and costs a lot less too.

The 6000 pound All-in-One offers lift range from 11 to 21 inches, which makes it perfect for trucks, SUVs and vans.

Stylish and affordable, Powerbuilt products meet or exceed ASME and PALD standards. One year warranty.

Made in China

Inventory Code: 4764

- Lift, Lock & Level - A Jack Stand and Bottle Jack All-In-One
- Lifts Like a Bottle Jack, Locks Like a Jack Stand
- Great For Trucks, Jeeps and SUVs
- Also Works on Decks, Foundations and Other Construction Projects
- 6,000lb Load Capacity
- Lift Range: 11" - 21"
- Patent Pending Design

620516

4000Lbs U-Jack Garage Jack

Suggested Retail: \$199.99

This patented designed jack is the only jack made so that the user can place a jack stand exactly on the same lift point as the jack lift saddle has raised the car from the uniquely fork shaped lift saddle and open front end allows the jack stand to be placed in the cavity under the lift arm, and once secure the jack can be lowered leaving the vehicle resting safely on the jack stands at the exact lift point specified.

Made in China

Inventory Code: 42251

- Capacity: 2 Ton (4000lbs)
- Lift Range: 4.5" - 18"

941487

L-Type Mini Ratcheting Bit Driver

Suggested Retail: \$7.99

This ultra-compact mini bit driver is just the ticket for loosening and tightening fasteners in the tightest spaces. It fits comfortably in the palm of your hand and ratchets in forward and reverse directions to make quick work of any fastening task. It's constructed of Chrome Vanadium steel for full-size strength and durability. Fits all standard 1/4 in. hex screwdriver bits.

Made in Taiwan

Inventory Code: 53

- L-Type Mini Ratcheting Bit Driver
- 20 Tooth Ratchet Mechanism with Left/Right Switch Function
- Magnetic Insert to Hold Bits Secure in Drive End
- L-Shaped Handle Fits Comfortably in the Palm of the Hand Giving the User Added Leverage in a Compact Design
- Cr-V Steel
- Plastic L-Shape Handle

941160

12-In-1 T-Handle Ratchet Driver Set

Suggested Retail: \$14.99

Made in China

Inventory Code: 996

Looking for a stylish and innovative tool to add to your arsenal? The versatile T-Handle Ratchet Driver does it all. This screwdriver can quickly change from straight to T-handle style and back again, all without removing the fastener from the driver.

In T-handle mode, it delivers up to three times the torque of a standard driver, making your job that much easier. The wide variety of screwdriver bits included fit many common sizes fasteners so you'll almost always have the right tool in hand.

Dependable Powerbuilt bit drivers meet or exceed ANSI standards and have a lifetime warranty, all at affordable prices.

- Innovative tool easily changes from straight to T-handle and back again
- 12 screwdriver bits included to make sure you've got the right bit for many common automotive and household fasteners
- T-handle mode generates up to three times the torque of a standard screwdriver
- Meets or exceeds ANSI standards
- Lifetime warranty

620566

2.5Ton Low Profile Service Jack

Suggested Retail: \$229.99

This heavy-duty jack is versatile, with a wide lift range, from a low of 3 inches to a generous 19-1/2 inch maximum lift height. You can use it to raise everything from slammed sports cars to full-size pickups.

It's fast, thanks to the dual piston quick lift pump that raises the lift arm to max height in just 7 pumps of the handle. And you can use the built-in foot pump to raise the saddle in smaller increments to position it precisely under your car or truck.

The generous saddle, wide wheelbase and heavy-duty flanged steel frame combine to create easy-rolling stability and security under heavy loads.

This beefy construction ensures you'll enjoy years of trouble-free service. We don't just say so, we prove it. The Powerbuilt 2-1/2 ton low profile jack is tested to meet or exceed ASME standards for construction, durability and performance.

Made in China

Inventory Code: 42261

- Stylish low profile design fits under vehicles as low as 3 inches
- Quick lift design - just 7 pumps to full height
- Built-in foot pump for easy and precise saddle positioning under vehicle
- Shop quality construction, performance and features
- Meets or exceeds ASME standards
- One year warranty

620513

36" Zag 2In1 Creeper / Rolling Seat

Suggested Retail: \$54.99

Can't decide which kind of creeper you need? Then take a look at this innovative 36-inch ZAG 2-in-1 floor creeper. It's two in one!

The patented ZAG creeper easily converts from a traditional lay-down creeper to a rolling seat. Just pull the spring-loaded pin and raise it into the seat position - no tools needed!

The strong steel body features a stylish padded headrest and deck with a durable red vinyl cover for comfort and quick cleaning.

Six precision 2-inch casters roll without a hitch, letting you maneuver with ease. Powerbuilt creepers. Dependable, affordable and built to last.

Made in China

Inventory Code: 4263

- Ability to Convert from Flat Creeper to Rolling Seat in a Matter of Seconds
- Steel Frame and Soft Foam Padding Allow you to be Perfectly Comfortable While Working in the Garage
- Creeper has One Toggle Pin that Allows it to Fold from Laying Creeper to Rolling Seat in Seconds
- Overall Size: 36.25" (L) x 16.50" (W) x 4" (H)
- Weight Capacity: 250lbs

620557

Pb Heavy Duty Rolling Seat W/ Organizer

Suggested Retail: \$119.99

This rock-solid roller offers pro-quality construction and features you won't find on cheapo rolling stools. It's a small investment that will pay handsome dividends in comfort and performance. The large 4" diameter rubber wheels roll soft and smooth over concrete and cracks. They swivel like butter on ball bearing casters. You can lock two of the wheels – handy when you're working on a sloped driveway. Those smooth-rolling wheels are anchored to a strong and stiff steel frame that spans a full 22" length and 12" width. This generous wheelbase minimizes the chance of the tipping that plagues lesser quality stools. The seating pod offers a sliding storage bin under the seat surface, as well as two handy trays for holding tools, small parts and up to 4 cans of fluids, cleaners and/or your favorite beverage.

The seating area itself is a generous 18" long by 10" wide and has a non-slip surface. With a 300-pound load capacity, this chariot could've shuttled Henry VIII himself around the royal garage.

Made in Taiwan

Inventory Code: 4247

- Strong stiff 1" x 1/2" steel tube frame
- Heavy-duty injection-molded seating pod won't rot or rust
- Smooth rolling easy swiveling 4" rubber casters roll soft and smooth
- Slide out drawer and twin tool trays offer ample storage
- 18" x 10" seating surface
- 300-pound capacity
- One year warranty

941264

3/8" Dr. & Bits 2-In-1 Thumb Ratchet

Suggested Retail: \$11.99

This compact, versatile and speedy finger ratchet fits where full-size ratchets won't and works faster too! It offers speed, compact size and a stylish blue anodized finish.

Simply attach any 3/8" drive socket or 1/4" hex screwdriver bit then tighten or loosen a fastener with the sturdy 36 tooth ratchet mechanism.

Precision built and affordable, Powerbuilt products meet or exceed ANSI standards.

Made in Taiwan

Inventory Code: 275

- Two-sided design works on 3/8" sockets or 1/4" hex shaft screwdriver bits
- High quality 36 tooth reversible ratchet mechanism
- Finger cut-outs add grip and comfort
- Affordable quality
- Strong and dependable enough to last a lifetime

649938

3/8" Dr 90T Sealed Head Ratchet

Made in Taiwan

Suggested Retail: \$34.99

Inventory Code: 8131

The Powerbuilt 3/8" drive 90-tooth sealed head professional grade ratchet is the most durable ratchet in the Powerbuilt line. The XT90 ratchet requires just a 4-degree swing to engage the ratchet, making it ideal for the tightest spaces in the engine bay.

Built of strong chrome vanadium steel with a beautiful mirror finish, the 90-tooth ratchet features an ergonomic full-length handle that's weighted for great balance and feel.

Molded finger grooves offer maximum control, comfort and grip with or without gloves. And the handle is offset to provide extra knuckle clearance.

The solid forged fully sealed head keeps lubricant in and debris out for longer service intervals.

Powerbuilt ratchets are constructed of premium chrome vanadium steel, then buffed to a high mirror polish. This beautiful finish is tough too, rated to withstand a 30-hour salt spray corrosion test.

They're precision crafted to exceed ANSI standards for torque, reverse torque and tolerance.

Precision built and affordable, Powerbuilt products meet or exceed ANSI standards.

- Precision 3/8" Drive 90 tooth ratchet engages with just 4-degree swing
- Solid forged sealed head keeps dust and debris out
- Precision weighted ergonomic handle offers great balance and feel
- Finger grooves and thumb rest add to comfort and control
- 8-3/16" overall length
- Professional quality
- Strong and dependable enough to last a lifetime

940009

2Pc 1/4" & 3/8" Dr. Socket Lever

Suggested Retail: \$9.99

Quite possibly the lowest profile socket drivers you've ever seen, the Socket Levers just the ticket for turning those impossible-to-reach nuts and bolts. They're stubby too, saving valuable storage space when a full-size ratchet or bar won't fit. Great for tool rolls, emergency repair kits, boats, RVs and off-road vehicles.

Made in China

Inventory Code: 264

- Non-Ratcheting Extra Low Profile Socket Levers are the Perfect Solution for the Tightest of Spaces
- For Even Greater Low Profile Clearance the Powerbuilt® Socket Levers can be used with the Powerbuilt® Low Profile Sockets: 642057, 642058, 642049, 642050, 649975
- 1pc 1/4" Dr. Socket Lever
- 1pc 3/8" Dr. Socket Lever
- Double Dipped Handles

649953

3/8"Dr 17" Long Reach With Flex-Head Pro

Suggested Retail: \$59.99

Powerbuilt Professional Technician ratchets are built to meet or exceed ANSI specifications. All ratchets are constructed of high-quality Chrome Vanadium (CR-V) steel with mirror polished chrome plated finish.

Close quarters and metal obstructions sometimes make removing a fastener almost impossible for a regular ratchet.

But this 3/8" Drive 17" long reach flex-head pro ratchet handle is much longer than most standard ratchets, perfect for reaching those crowded spaces.

The innovative flex-head allows you to swivel the ratchet head up to 180 degrees to reach out of the way fasteners.

Powerful, precise and stylish, Powerbuilt ratchets offer the look, feel and performance hard-working Techs deserve.

A no questions asked replacement policy and lifetime warranty ensure it'll be a long-term relationship.

Made in Taiwan

Inventory Code: 5662

- Precision 3/8" Drive 17" long reach flex-head ratchet handle with stylish mirror finish
- 72-tooth ratchet offers 5-degree engagement for working in tight spaces
- Sealed quick release button block dust and debris
- Contoured handle offers supreme comfort
- Premium chrome vanadium steel construction
- Drop forged and heat treated for maximum durability
- Mirror polish chrome finish prevents corrosion
- Meets or exceeds ANSI standards
- Strong and dependable enough to last a lifetime

940931

1/4"X3/8" Dual Dr. Little Ratchet Handle

Suggested Retail: \$14.99

Built of strong chrome vanadium with a beautiful mirror finish, this handy dual-sided stubby ratchet drives both 1/4 in. drive and 3/8 in. sockets. The reversible 72-tooth ratchet engages with just a 5 degree swing making it even easier to work in tight spaces. 1/4" X 3/8" Dual Dr. Little Ratchet Handle.

Made in Taiwan

1/4"Dr Tpms T-Handle Torque Wrench

Suggested Retail: \$139.99

This precision T-handle torque driver wrench is the ideal companion for installing Tire Pressure Monitoring System components. It's also ideal for automotive, motorcycle and bicycle applications requiring low torque readings.

Made in Taiwan

Inventory Code: 4526

- Designed for precision use on tire pressure monitoring system valves
- Ideal for installing carbon fiber handlebars and other precision components on road bikes and mountain bikes
- Ratcheting design for quick tightening without removing wrench
- Easy to set torque target value from 20 to 100 inch-pounds
- Generously sized, comfortable T-handle for added control

942068

Self Adj Filter Pliers (2-1/4" - 4-3/4")

Suggested Retail: \$24.99

Powerbuilt Self-Adjusting Oil Filter Pliers offer a safer, faster and cleaner way to remove oil filters.

The secret? They automatically close to the right size to grip and turn filters from 2-1/4" to 4-3/4" diameter. That covers just about every size oil filter on the shelf at your auto parts store. You only need one hand to use them, and the more you turn them the harder they bite.

They're constructed from laminated steel for maximum strength and stiffness. And the cushioned handles offer comfort and grip to spare.

Made in Taiwan

Inventory Code: 9411

- Self-adjusts to grip and turn oil filters from 2-1/2" to 4-3/4"
- Sharp teeth dig into oil filter walls for no-slip grip
- Grips harder as it turns
- Comfortable handles offer added grip
- Lifetime warranty

942072

Magnetic Oil Drain Plug Remover Tool

Suggested Retail: \$24.99

The Powerbuilt Magnetic Drain Plug Remover Tool makes it quick, clean and easy to remove your oil drain plug. No dropping the bolt into a pan of hot oil or scorching your fingers trying to loosen it by hand.

Simply loosen the plug with a socket wrench, then attach the powerful magnet to the drain plug and turn the tool to remove the plug.

The tool has a flexible shaft for reaching remote drain plugs. If needed, attach the included 1/4" hex bit adapter to mate with specialty bits used for many foreign car oil drain plugs.

And the handle has a cavity to hold the adapter and magnetic plate for safe keeping between uses

Made in Taiwan

Inventory Code: 9111

- Makes it easy and clean to remove oil drain plug bolts
- 6" flexible shaft for added reach
- Comfortable handle with storage slot for adapter and magnet
- Includes 1/4" Dr. x 1/4" hex bit adapter and magnetic adapter

941644

8 Pc SAE 3 Way T-Handle Spin Hex Wrench

Suggested Retail: \$99.99

This top quality T-handle SAE hex key wrench set offers speed, strength, style and precision to spare. Each wrench is constructed of premium chrome vanadium steel for durability and a precise fit into SAE hex head fasteners. Slide the T-handle to the center position, hold the free-spinning sleeve on the shaft and tighten or loosen those hex head screws at light speed. Slide the T-handle to the end position and cinch that screw down. Not to brag, but the 3/8-in. wrench has an 11" reach. At the other end of the spectrum, the 5/64-in. wrench offers 4-1/2" of reach. And every size in between offers way more reach than L-type hex keys. You'll love the positive grip and precise fit the friction-treated hex tips offer. That means less chance of rounding and cam-out. These sweet wrenches will never be far out of reach with the included storage rack. Hang it on your tool wall, toss it in a toolbox drawer or set it on your benchtop for easy access.

Made in Taiwan

Inventory Code: 4764

- Stylish and affordable, Powerbuilt products meet or exceed ANSI standards. Dependable enough to last a lifetime.

Combo Switch Int/Ext Snap Ring Pliers(D)

Suggested Retail: \$29.99

Made in Taiwan

Inventory Code: 4921

Declutter your toolbox and your life with these combination internal/external snap-ring pliers. With the flip of a switch you can use it to remove and install both internal and external retaining rings and circlips. And it comes with 4 sets of different tips sizes and styles to cover most automotive and machine applications. Changing tips is a quick, tool-free operation - just open the locking switch to remove tips and close it to lock different tips in place. Use them to remove and install internal retaining rings from 3/8" to 2", and external circlips from 1/4" to 2". The included straight and 90 degree tips fit grip holes of 1.2mm diameter and up.

- Reversible combination retaining ring Pliers remove and install both internal and external snap ring circlips
- Reverses with the Flip of a switch - no tools or disassembly required
- Spring-loaded handles help hold circlips in place
- Includes 4 pairs of chrome vanadium tips in 1.2mm and 1.8mm diameter straight and 90 Degree bend
- Quick and easy tool-free tip changes

941456

Combo Switch Int/Ext Snap Ring Pliers

Suggested Retail: \$24.99

Leave it to Powerbuilt to design better, smarter snap-ring pliers. For starters, they convert from internal to external with the flip of a switch - no more handle changes. Next, when it comes time to swap out tips,

Next, when it comes time to swap out tips, simple open the tip lock levers to remove and install tips. No tiny hex key wrench or fumbling with microscopic set screws. Last but not least, Powerbuilt fit, comfort and quality make these handy pliers a pleasure to use, day in and day out.

Any automotive specialty tool makes an automotive repair or maintenance task easier, but Powerbuilt takes the concept of 'help' a big step further. Every package comes with professionally written usage instructions and photos that take you step by step through proper tool usage.

Dependable Powerbuilt specialty tools offer power, precision and style. They meet or exceed applicable ANSI standards and have a lifetime warranty, all at affordable prices

81Pc Special Solutions Socket&Bits Set

Suggested Retail: \$89.99

Made in Taiwan

Inventory Code: 3984

The Powerbuilt 81 Piece Special Solutions socket set offers sockets and bits to handle almost any fastener you come across. New, rusted or damaged, SAE, metric, 6, 8 or 12-point, tamper-proof...if you can name it, chances are there's a tool in this set to turn it. Powerbuilt Zeon sockets are designed to grip and turn damaged and rounded nuts and bolts. The patented design will grip and turn hex heads up to 85% rounded. And they work just as well on new nuts and bolts. This set includes a full range of SAE and metric Zeon sockets. Powerbuilt universal fit spline sockets drive 6 different types of fasteners, including 6 and 12 point hex head, square, E-Torx, damaged and spline style. You'll appreciate the precise fit and extreme durability of premium chrome vanadium steel construction. The set includes 11 metric spline sockets that will also drive the SAE equivalent fasteners nuts and bolts. Powerbuilt tamper-proof bits are just the ticket to drive almost every style of security fastener out there, including SAE and metric tamper proof hex and Torx fasteners. They're constructed of hardened S2 steel for precise fit and long life. All these useful tools store in a heavy-duty tray for easy access and size identification.

- Premium chrome vanadium and S2 steel construction
- Storage tray and bit holder sleeves included
- Meets or exceeds ANSI standards
- Lifetime warranty

941763

28 Pc 1/4" & 3/8" Dr. Zeon Socket Set

Suggested Retail: \$79.99

The Powerbuilt 28-Pc. Zeon Socket Set features Zeon sockets with a uniquely designed broaching that allows them to grab onto 85% rounded/damaged nuts and bolts, yet allowing an easy, clean removal every time. Includes 24 Zeon SAE and metric sockets, ratchet handle, 2 extensions and adapter. Limited lifetime warranty.

Made in Taiwan

Inventory Code: 3193

- Zeon sockets have a unique broaching that allows them to grab onto 85% rounded/damaged nuts and bolts
- Zeon sockets allow an easy, clean removal, as they don't bite into the rounded fastener
- Meets or exceeds ANSI standards
- (12) SAE sockets: 3/16in., 7/32in., 1/4in., 9/32in., 5/16in., 3/8in., 7/16in., 1/2in., 9/16in., 5/8in., 11/16in., 3/4in.
- (12) Metric sockets: 5, 6, 8, 10, 12, 13, 14, 15, 16, 17, 18, 19mm

642623

9Pc mm Zeon Hex Key Wrench Set

Suggested Retail: \$39.99

Powerbuilt Zeon hex key wrenches are designed to grip and turn damaged and rounded hex head fasteners. The patented design will grip and turn hex surfaces up to 85% rounded. In other words, if you've got a hex head bolt or cap screw bolt that's too damaged to turn with a regular hex bit socket or hex key wrench, these wrenches will get you out of a fix. And they work just as well on new, undamaged fasteners. The secret is the patented Zeon design - the more you turn them the harder they grab and hold damaged hex heads. They're constructed of hardened 8660 steel for maximum strength and durability. They feature extra-long handles for applying torque to those stubborn fasteners. For added versatility, the long handle wrench ends are finished with a ball end hex key for use on new fasteners at angles up to 20 degrees.

Made in Taiwan

Inventory Code: 1191

- Includes Zeon metric hex key wrenches: 1.5mm, 2mm, 2.5mm, 3mm, 4mm, 5mm, 6mm, 8mm and 10mm
- Zeon hex key wrenches grab and turn fasteners that are up to 85% rounded
- Works great on new fasteners too, without damaging them
- Heat-treated for extra hardness and bite
- Extra-long handles for added reach and torque
- Conventional ball end hex key on L-handles
- Durable satin chrome plated finish
- Hangable storage rack included
- Meets or exceeds ANSI standards
- Lifetime warranty

30 Self Adj Filter Pliers(2-1/4"-4-3/4")

Suggested Retail: \$29.99

Powerbuilt Self-Adjusting Oil Filter Pliers with 30-degree angled jaws offer a safer, faster and cleaner way to remove hard to reach oil filters.

The secret? They automatically close to the right size to grip and turn filters from 2-1/4 to 4-3/4 inch diameter. That covers just about every size oil filter on the shelf at your auto parts store. You only need one hand to use them, and the more you turn them the harder they bite. The 30-degree angled jaws are just the ticket for reaching, grabbing and turning oil filters tucked away in engine compartments. They're constructed from laminated steel for maximum strength and stiffness. And the cushioned handles offer comfort and grip to spare.

Made in Taiwan

Inventory Code: 7221

- Self-adjusts to grip and turn oil filters from 2-1/2 in. to 4-3/4 in. diameter
- 30 degree angled jaws reach and turn filters in tight spaces
- Sharp teeth dig into oil filter walls for no-slip grip
- Grips harder as it turns
- Comfortable handles offer added grip
- Lifetime warranty

647815

Adjustable Bearing Race And Seal Kit126

Suggested Retail: \$169.99

Made in Taiwan

Inventory Code: 4947

Save time with one innovative tool that does the work of many. Instead of a box full of different size pieces that you have to test-fit one by one, the adjustable bearing race and seal tool expands to fit any opening, allowing you to install a bearing race without damage.

Simply twist the shaft and the tool will open up to the size you need. Fasten the lock collar into place during use, load the bearing race and tap into place. When you are finished, just unlock the collar and the tool will close down to its original size.

Adjusts from 0.73 to 3.5 in. (1.85 to 8.89cm) with ease.

Kit Services: most passenger vehicles.

- Adjustable bearing race and seal tool expands to fit any opening from 0.73 to 3.5 in. (1.85 to 8.89cm)
- Durable storage case with step-by-step instructions
- Precision-built to meet or exceed ANSI standards
- Strong and dependable enough to last a lifetime

8 Pc Zeon Metric Socket 8 Piece

Suggested Retail: \$16.99

Removing the toughest nuts and bolts is a breeze with exclusive, patented Powerbuilt Zeon metric socket set. Turn the Zeon sockets and they'll respond by gripping tighter, to prevent rounding of hex head corners. But even nuts and bolts that are rusted, damaged and up to 85% rounded off no match for the gripping and turning power of Zeon sockets. What's more, they won't cause further damage to rounded hex heads and release easily and cleanly. And they work just as well on undamaged nuts and bolts. Includes 1/4" Dr. Metric Sockets: 6mm, 8mm, 10mm, 12mm; 3/8" Dr. Metric Sockets: 13mm, 14mm, 15mm, 19mm.

Made in Taiwan

Inventory Code: 457

- Includes 1/4" Dr. Metric Sockets: 6mm, 8mm, 10mm, 12mm; 3/8" Dr. Metric Sockets: 13mm, 14mm, 15mm, 19mm
- Premium chrome vanadium steel construction
- Heat-treated to hardness HRC 38-56
- Includes reusable storage tray
- Meets or exceeds ANSI standards
