

melnor® Founded in 1946, Melnor® has a long history of innovating lawn and garden watering products. Our first big step came with the introduction of the first successful oscillating sprinkler for the home market. Over the years we have put our own twist on watering tools, providing homeowners with quality products, carefully engineered to fit their needs.

Today, we continue to make strides in innovation with introductions such as the advanced line of Bluetooth® Timers and two new powerful cleaning series, Mpack and Vortex. These introductions join our other leading product lines, including XT and RelaxGrip, covering a wide variety of watering needs. We look forward to continuing our tradition of reimagining gardening and helping homeowners grow healthy lawns, vibrant flowers and bountiful gardens for many years to come.

Vortex™

Powered by a signature helix high-speed spinning spray pattern, Vortex tools scrub

away dirt and grime while using less water. With a power you can feel, the spiral spray whips away dirt faster. Constructed with an ergonomic grip and using the latest technology, Vortex tools give you the confidence to take on your next outdoor project. Drive away debris from gutters and sidewalks or softly water plants and flowers using Vortex watering tools – a new twist on cleaning.

Mpact™

Clean like you mean it! Watch outdoor cleaning become quick and easy with

Mpact. Blast away stubborn dirt with the force of an advanced pulsating spray technology, ideal for cleaning vehicles, decks, siding, outdoor furniture, and more. The Mpact driver is engineered to pulse water without any moving parts delivering maximum durability and high performance. This innovative spray concept uses less water while commanding more strength for years of use. Tough jobs are no match for Mpact nozzles and wands.

RelaxGrip®

Feel a difference in comfort with the RelaxGrip nozzles and wands. Specially designed with an advanced grip to alleviate strain on the hands and wrists, RelaxGrip watering tools can make life easier for people who have arthritis or other physical limitations. Nine of these unique tools have been independently tested by experts and earned special commendation from the Arthritis Foundation for Ease of Use®. Enjoy spending more time outside with the right tool, designed for comfort.

®

XT™

XT tools are job site tough. Strength meets function with the XT line of pro-grade watering products. Built tough with a rugged design, they offer unique features to tackle even the most demanding jobs both around the house or at the job site. Engineered for dependability with the user experience in mind, XT watering tools stand up to the abuse of tough use. Offering an ideal combination of comfort and durability, choose the right XT tool to handle a wide variety of watering needs.

Smart Watering

From new, innovative Bluetooth® Timers to programmable Digital Timers, keep your lawn and garden healthy with simple tools for customized watering. Set up is simple and offers flexible scheduling to personalize watering for your lawn and garden. 1-zone, 2-zone and 4-zone options allow for more applications and a manual mode lets you temporarily override the schedule and utilize the faucet to wash the car or spray off the deck. The Sunrise Once-A-Day Water Timer automatically waters when the sun rises with absolutely no programming required while the latest Bluetooth® timers use your smart device as the remote control to easily manage watering from an app.

Sprout

Add a little splash of color to your yard with nozzles, wands, and sprinklers as colorful as your garden. Sprout watering tools come in vibrant two-tone colors including blueberry blue, raspberry red, and gooseberry green. Sprout tools are built to last, helping gardeners grow fresh, crisp vegetables, beautiful blooming flowers and lush green lawns season after season. Make the most of your time outside from enjoying the garden to tackling cleaning chores with Sprout tools you can count on.

Soaker Hose is a great way to be Water Wise. By slowly soaking only the areas you need, plants grow strong and lush with minimal run-off. Our Flat Soaker Hoses are easier to use than standard soaker hoses which are hard to bend and even harder to store. The flat design rolls up tightly to store in a small space and is available in three lengths: 25, 50 and 75 feet.

Vacation Watering Kit

**Potted plant watering kit—
for vacation or every day**

No need to worry about your plants at home while you're enjoying your vacation with the Potted Plant Watering Kit. This kit includes all the pieces you need to set up worry-free irrigation. Simply fill a water container of your choice – bucket, waste basket, whatever you want. The timer/pump combo hangs on the side of the container and automatically irrigates up to 10 potted plants. The water container you supply minimizes the potential for water waste or damage from leaks, since the water used is what is in the container. The kit is easy to set-up and adjust to ensure each plant gets just the right amount of water. Whether you're traveling for a few days or a few weeks, your plants will stay watered with this easy-to-use irrigation system.

15100 Potted Plant Watering Kit

- Automatically waters up to 10 plants
 - Easy-Set Timer/Pump Combo

Each watering area can have its own schedule

Each zone has its own schedule, so you can water your tomatoes every morning and your lawn every other day.

Easily choose when and how long to water

Whether you need to water on specific days of the week or just every few days, flexible scheduling allows you to set exactly when and how long to water.

Skip watering when rain is in the forecast

Stop your sprinkler from running in the rain. The delay feature allows you to pause the watering schedule for up to 7 days.

The sun comes up.
The water goes on.
It's that easy.

Sunrise™

Here's a bright idea: A timer that automatically waters your lawn or garden every morning, at sunrise...with absolutely no programming. Watering in the morning is the best way to ensure healthy, lush plants. But, who wants to get up at the crack of dawn and do the task? Let Sunrise, the Once-a-Day Water Timer, do the job for you. Simply set how long you want to water and let Sunrise handle the rest. So sleep in, and still water your plants.

Select how long to water each morning

The timer watches for the sun to come up

Your lawn and garden are watered
