

**PROFESSIONAL TOOLS
FOR PROFESSIONAL RESULTS**

QEP Co., Inc. was founded in 1979 in the New York family garage of Lewis and Susan Gould. The very first QEP branded tiling product was a "Do-It-Yourself" Bathtub Edging Kit. There was nothing like it on the market. As the popularity of tile floors began to rise in the United States, so did the demand for DIY installation tools and accessories. This demand quickly opened the doors of opportunity for the QEP brand throughout the national tile tool market. The QEP brand continued to grow and evolve, eventually expanding into the professional market. In 1984, QEP released the world's first "dual rail" tile cutter, and in 1989 began manufacturing their own professional tile spacers.

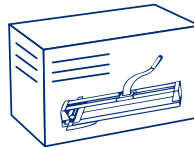

In the late 90's, QEP Co., Inc. continued to expand its reach and began selling the QEP brand into Canada, Mexico and South America. Over the next decade, the QEP brand made its way into Australia, New Zealand, England, France and China. Today, QEP has become a recognized professional brand, specializing in installation tools and accessories for tile, porcelain and natural stone. QEP products can be found in all 50 States and in countries throughout the world.

Presenting our QEP branded products in the most professional way possible is a top priority for us. If we look good, you look good. We also realize that as product segments continue to expand, shelf and pegboard space are sometimes limited. In order to help maximize your space we have included icons to indicate the packaging types of each of our installation tools. The products in this catalog will include the respective icon from those listed below.

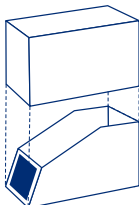

H HANG CARD

Product is individually packaged on a hang card for peg hook placement. Ships in Kraft shipping carton with no perforation.

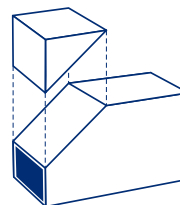

C COLOR CARTON

TILE SPACERS

For perfect tile-to-tile leveling

The patented LASH® Tile Leveling system is designed for quick installation and reduces costly call backs by insuring that the finished floor surface is lippage-free. This time-saving system helps adjust the height of the tiles and evenly holds their edges throughout the curing process of the setting material.

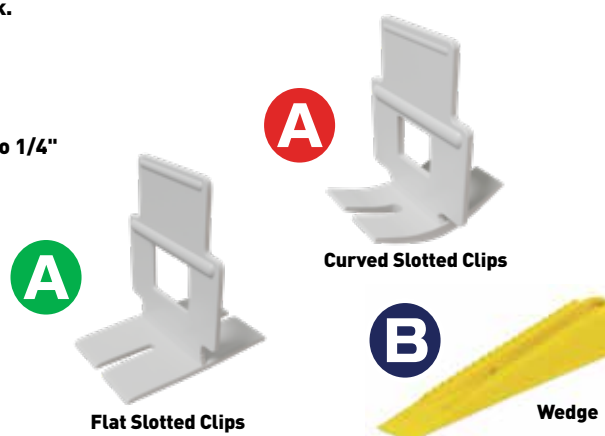

- For use with all floor and wall tiles between 1/4" and 7/16" thick.
- Durable nylon construction for a secure installation
- Specially designed break-off point on clips for swift removal
- Produces 1/16" joint spacing
- May be combined with regular tile spacers for wider joints - up to 1/4"
- Wedges are reusable

UNDERLAYMENTS

Natural Cork Sheets

- Reduces sound transmission from both the surface of a floor as well as through the floor to living spaces below
- Use under ceramic tile, stone, marble, engineered hardwood and laminate floors
- Acts as a crack isolation membrane that resists transfer of stress cracks from subfloor through to flooring surfaces
- Reduces thermal transmission, increasing the effectiveness of floor heating systems
- Each sheet: 2' x 3'

72025	2.5 mm Sheets – 696 sq. ft./case, (116/cs) Only available in Canada

* IIC measures sound such as moving furniture and walking, STC measures sound such as voices and television. Minimum sound rating required by most building codes and architects is 50. Δ Delta Rating is the only true measurement of sound reduction from a product (not a floor assembly) in the industry.

Cork Plus

- Constructed of natural cork and recycled EVA foam, making it more flexible and less prone to breakage than standard cork underlayment
- Acoustical sound control under ceramic tile and stone
- Enhances stress crack suppression
- Reduces thermal transmission, increasing effectiveness of floor heating systems
- Can also be used under laminate and floating floors
- Easy to install on and above grade in both glue-down and floating floor installations

About California Proposition 65

Proposition 65 is a California regulatory law that requires businesses to notify California consumers about specific chemicals in the products they purchase so they can make informed decisions about protecting themselves from exposure to these chemicals. This law requires companies to properly label products that contain chemical(s) above certain threshold levels.

As part of Q.E.P. Co. Inc.'s continued best business practice and compliance program, we comply with Proposition 65 warning requirements and provide product-associated warnings. We are dedicated to meeting consumer product safety requirements applicable to our products and strive to provide high quality and safe products.

For more information on California Proposition 65, go to www.P65Warnings.ca.gov.

*Prop 65 - 1. **WARNING:** This product can expose you to chemicals including DEHP which is known to the State of California to cause cancer, birth defects or other reproductive harm.

*Prop 65 - 2. **WARNING:** This product can expose you to chemicals including N, N-Dimethylformamide, which is known to the State of California to cause cancer, birth defects and other reproductive harm.
