Tub O' Towels® - Heavy Duty Cleaning Wipes

100% SOLUTION SOAKED

Every wipe comes out of the container fully saturated and ready to work hard. Thanks to the unique wicking nature of Tub O' Towels wipes, combined with just the right amount of solution in every canister, wipes are always moist, never dry. Other wipes start drying out before they even hit the shelves.

DURABLE FIBER WEAVE

More scrubbing power for the effort while staying gentle on hands and soft surfaces. A special fiber weave wicks up moisture, enhances scrubbing and grabs dirt. The quilted design offers cushioning and surface texture. Thanks to the combination of the two, dirt's a goner.

OVERSIZED, OVERACHIEVING

Bigger, stronger and tougher by design. Tub O' Towels cleaning wipes are generously sized (10" x 12" in the 90-count tub) and made of a heavy-duty polyfiber blend, not cotton. This means they won't fall apart on the job.

CLEAN WITHOUT THE MEAN

Tub O' Towels provides hard-core cleaning, without the hard-core chemicals. Our high-performance blend of biodegradable detergents and emulsifiers goes to work dissolving grease and dirt, while foaming agents lift it off the surface so it can easily be wiped away.

TOUGH ON DIRT, GENTLE ON HANDS

Our wipes contain aloe, vitamin E and lanolin to protect hands and leave them clean and soft. While designed to clean thousands of surfaces, there's one surface Tub O' Towels cleans especially well - your hands. No matter what you get on them, permanent marker included, Tub O' Towels will take it right off.

VAPORLOCK™ CANISTER

A heavy-gauge plastic tub and locking lid minimize solution evaporation. As much thought went into the Tub O' Towels container as the wipes themselves. The result is a tough plastic tub that prevents evaporation. And a locking lid snaps shut, creating a tight seal.
