

## Managing Risk and Compliance across the Hybrid Cloud

---

### **BUSINESS CHALLENGE:**

In order to keep up with the demands of the company's current portfolio of 16 commercial office properties totaling approximately 4 million square feet, Carr Properties, a real estate investment trust that owns, manages, acquires and develops high-end properties in the Northeast U.S. hired Ilan Zachar. As their new CTO, Ilan is leading the modernization and optimization of Carr Properties' technology platforms.

### **TRANSFORMATION:**

Carr Properties was looking to consolidate control of their evolving application and technology infrastructure—without adding headcount or complexity.

Based on reputation and experience, Ilan engaged RestorePoint, Inc. to evaluate Carr Properties' infrastructure, ultimately selecting RestorePoint, Inc. to deliver and manage a platform that integrates the emerging trend of cloud-based applications to provide automation, visibility, analytics and control across the enterprise.

“I sleep soundly knowing that RestorePoint is proactively identifying, addressing and correcting our compliance issues.” – Ilan Zachar

**Results:** Carr Properties experiences greater control over a once disparate IT / IoT infrastructure and establishes a managed platform that nimbly detects and responds to threats and compliance issues with little to no burden on the existing team.

### **ADDITIONAL OUTCOMES:**

**For the Tenants:** The establishment of the new platform allows Carr Properties to extend the range of control to in-building systems that touch their tenants each and every day—energy management systems, building management systems, elevator controls, lighting controls and life safety—to ensure that these IoT systems are performing seamlessly for the benefit and safety of the tenants.

**For the Business:** In addition to transforming Carr Properties to a next generation platform, RestorePoint, Inc.'s solution provides the ability to meet audit and compliance requirements, and analytics to pinpoint areas of improvement as the business evolves.

## **RestorePoint**

*Providing Data Compliance and  
Risk Mitigation to the Commercial  
Real Estate Industry for Over 15 Years*
