

GO BIG OR GO HOME!

Introducing HEFTI 28x0.5g Peyote Wi-fi Pre-rolls

Blaze with friends courtesy of the folks from Hefti! Peyote Wi-Fi is a mostly indica dominant hybrid, created by crossing the famous strains Wi-fi (The White x Fire OG) and Peyote Purple (a great Bubba Kush phenotype). The diesel and earthy notes come from the dominant terpene combination of Pinene, Caryophyllene and Nerolidol.

About Hefti: Since the dawn of time, people have challenged themselves to make everyday items larger than life. Think of food like the world's largest pizza (it was gluten-free!). Monuments, like the World's Largest Dinosaur (Tyra, Drumheller!). Oversized fashion, big sunglasses, baggy jeans (which really started in the '90s, but it's back, and we love 'em). For what? Fame and glory? Guinness book of world records? A good Instagram photo? The outcome is the same, happiness comes in large packages.

Hefti is proud to own **#BigBagLife**—weed is always better in the big bags!

HEFTI

Peyote Wi-fi
28 x 0.5g Whole Flower/Fleur Entière

THC: 21.1%

CBD: <1.0%

Terps: 3.02%
