

Maple Leaf Strategies

Who Cares About BC's Budget 2026 Consultation?

01

Housing Developers & Municipalities

Government is
signalling support
for densification
and infrastructure
to unlock housing
supply.

02

Health Care & Education Sector

Workforce recruitment and retention in high-demand professions is a clear budget priority.

03

Natural Resource & Manufacturing Sector

Permitting, trade infrastructure, and procurement policies are on the table.

04

Non-profits & Community Organizations

Stabilizing funding
and contracts for
service delivery is
being discussed.

This isn't just about numbers—it's about where **opportunity and risk** lie for your sector in the year ahead. If your organization has a stake in these sectors, now is the time to sharpen your advocacy **before decisions are made.**
