

# FROM CONSULTATION TO BUDGET: WHY EARLY ENGAGEMENT MATTERS

The BC government's Budget 2026  
consultation seeks solutions that  
balance fiscal discipline with  
**strategic investments in housing,  
health, economic growth, and  
climate readiness.**

But here's the catch: **not every  
recommendation will make it into  
the final budget.** That's where  
government relations makes the  
difference.

## **Our role is helping clients:**

- Position their priorities within government's broader fiscal narrative
- Anticipate trade-offs and competing priorities
- Build coalitions and amplify voices before decisions are locked in

If your sector, association, or business wants to ensure its priorities **are on the government's radar**, now is the moment to act.

**Connect with Maple Leaf Strategies  
or join our workshop to turn  
recommendations into results.**
