

Middle England Farm

Risk Assessment for unaccompanied Care Farm Students

July 2017 revisions July 2018, January 2019 & January 2020, January 2021, January 2022, January 2023, January 2024, January 2025

Middle England Farm aim to provide alpaca experiences and other farm animal experiences in safe and hygienic surroundings. Our guides ensure everyone enjoys the maximum benefits during their time with us. We are here to ensure maximum learning and maximum enjoyment from their visit, and this is done through working in close partnership with you.

Health and safety is paramount at Middle England Farm. To help schools prepare for visits, we have done our own hazard risk assessments about our operation and the important points are listed below. However, there will be things that require your own judgment, relating to your knowledge of your own, specific student(s). You are responsible for informing us of any risks you see as being an issue whilst your student(s) are on our farm.

Please take the time, therefore, to read our assessments and add your own notes where appropriate. We emphasise to every group the importance of thorough hand-washing when handling animals and we advise all students to have taken all hygienic precautions after stroking/caring for the animals.

Health and safety policy

This is the statement of general policy and arrangements for:	,
Middle England Farm visiting

School hygiene	Farm animal hygiene – animal droppings and urinating	Staff, students, including vulnerabl e people	Our animals are trained not to relieve themselves indoors. As with all animals this is sometimes unavoidable. We will clean up after our animals and remove all solid waste. However the school is responsible for disinfecting in accordance with their own cleaning protocol.	Staff are reminded that they are responsible for the supervision of their students and they should keep away whilst any clean up activities are in place. Staff should ensure all cleaning is done to their high standards.	
Animal petting	Being kicked by an alpaca, being knocked over by an alpaca	Staff, students, including vulnerabl e people	All persons stoking any animal will be shown how to handle the animals and how to avoid accidents. All persons will be supervised at all times and will never be left unaccompanied. In the unlikely event of either owner having to leave the scene for a few moments due to an emergency situation the student will be asked to remove themselves from the animal or left in the care of a member of staff who feels confident in the handling of the animal, if they agree this is appropriate and safe to do so.	Incidents to be reported in the accident book. Andrea or Tom Stevens-Moore is responsible for ensuring an ambulance is called if necessary	
			All tack and equipment is inspected daily before use. Alpacas are rotated to ensure they remain cooperative and interested in their experiences with people.		

Animal petting and activities involving close contact with animals.	Exposure to Zoonosis, bacteria or other infectious substances.	Staff, students, including vulnerabl e people	Staff are reminded that they are responsible for watching and monitoring students and vulnerable adults. Compliance with FACE guidelines Animals cleaned out regularly Residents reminded to wash hands.	Incidents to be reported in the accident book.	
	Animal bites	Staff, students, including vulnerabl e people	Expectant mothers are reminded of the need for proper hygiene controls when on the premises. Food and drink consumption is prohibited in the animal contact areas. Residents are requested to cooperate with maintaining hygiene standards but they cannot be forced to comply. Staff must ensure their charges are aware and carry out good hygiene.	Incidents to be reported in the accident book. Andrea or Tom Stevens-Moore is responsible for ensuring an ambulance is called if necessary	
			Animals for contact areas are selected according to their temperament. Our alpacas have never bitten. However we have first aid facilities in our vehicle if necessary. Staff must ensure rules for safety are followed.		

Visiting schools	Slips, trips and falls.	Our staff	The managers Tom & Andrea Stevens-Moore will speak with the staff about any incidents of note.	Incidents to be reported in the accident book and followed up by investigation.	
Open water See separate risk assessment	Falling in, drowning risk	Students and visitors	Andrea Stevens- Moore, Jeanne Shotton, Claire Black	Incidents to be reported in the accident book and followed up by investigation.	
Fire pit/open cooking See separate risk assessment	Burns, death	Students and visitors	Andrea Stevens- Moore, Jeanne Shotton, Claire Black	Incidents to be reported in the accident book and followed up by investigation.
