For Immediate Release:

Subject: MBA chosen for North Central Florida Physician Group DPC Management

McClure Benefit Administrators (MBA) has been chosen as the Direct Primary Care (DPC) Management Organization for MedOne Urgent and Primary Care Clinics in North Central Florida. The agreement will further MedOne's strategy of providing Direct Primary and Urgent Care to the public, including those with or without employer-based health insurance.

"We are excited to work with MedOne as it grows its membership base and expand offerings to employers," said William McClure, President of MBA. "This brings our relationships up to over 80 DPC Clinics Nationwide. The combined premium savings to the employers are helping fund wage growth and bonuses for their employees."

Dr Edward Lucas, Medical director of MedOne states, "We looked at many different companies to help us with our goals and we chose the best that aligned with our internal and community goals", Lucas said.

About MBA TPA (www.mbatpa.com): MBA is a company that provides:

- Thirty Party Administrator and ASO services to Employers who are focused on the profitability of their Employee Benefit Plans, Economic Development Services for Companies looking Recruit, Retain, or Reward their companies #1 assets, Human Resources support for companies looking to outsource some HR functions, and Direct Primary Care Management Network Management Services. More information can be found at www.mbatpa.com

About MedOne: MedOne Clinics were established in 2015 by Edward Lucas, M.D., an emergency trained physician who wanted to provide more of his services to those not just in the Emergency Department. He believes that most Urgent/Primary Combined clinics can help solve a US healthcare problem where 85% of all Emergency Room visits are not in fact ER visits, thus inflating the costs of healthcare for all Americans.
