# ABOUT US

## **FROM MILL TO MARKET, EXCELLENCE AT EVERY STEP**

With over a decade of experience at Pannwar , we've grown into one of Southeast Asia's leading suppliers of hardwoods, softwoods, MDF, and specialty panels.

Our success stems from strong, long-standing partnerships with mills worldwide—many lasting over 10 years.

We remain hands-on, regularly visiting mills and production sites to ensure quality and integrity at every stage of the supply chain.

We take pride in managing the entire product journey, always focused on doing the right thing for our customers.

## **SUSTAINABILITY AND INNOVATION IS THE NAME OF OUR GAME**

We're excited to share that we've also introduced a line of engineered hardwood and softwood boards. These are finger-jointed and edge-glued for enhanced strength—ideal for doors, door frames, furniture, and other interiors.
