

CONTRACT POOL FURNITURE

# Product Care & Maintenance

One of the most important reasons that aluminum furniture is so popular is because it requires only minimal regular maintenance to keep it looking its best.

## HOW TO CLEAN FRAMES

Your Bassett Outdoor Contract furniture may be washed with a mild detergent, water solution and a soft brush or cloth. Rinse well with clear water and allow to dry thoroughly before use.

## HOW TO CLEAN FABRICS & FINISHES

Most stains may be removed with a mild detergent and warm water solution. Rinse well with clear water and allow to dry thoroughly standing on edge before use. Mildew and heavy stains may be removed with a quality commercial outdoor furniture cleaner.

**BASSETT RECOMMENDS CLEANING 3-4 TIMES A YEAR TO ENSURE BEST PROTECTION.**
