

# *EDUCATION SPACES*

MODERN COMMERCIAL FURNITURE FOR UNIVERSITY SPACES

GRAND RAPIDS CHAIR COMPANY

# *SCHOOL OF THOUGHT*

We believe education takes place far beyond the classroom or lab. That's why our furniture is designed to encourage gathering, studying, socializing, learning, collaborating, and (of course) eating in the many places you put them. Yes, we make cafeteria furniture, but as we've seen over the years, these spaces have morphed into dynamic, multi-purpose areas for students and faculty to do more than just eat. And with those changes, our products too have morphed, making way for more modern designs you'd see in a restaurant on Instagram. What we haven't changed is our commitment to quality and American-made products. We'll continue to uphold our 10-year warranty and durability standards because we know that these spaces and subsequent furniture are used round the clock. Learning doesn't stop, and neither do we.

# DINING HALLS

University and college dining spaces have shifted from a limited cafeteria to a dynamic, multi-purpose space that feels more like a modern cafe or micro restaurant than anything else. Students not only care about nutrition and diverse food options, but they also come to expect a unique, thoughtful, and accommodating dining experience. Furniture plays a critical role in differentiating these spaces, and ultimately, the universities. From classic wood chairs to lightweight aluminum barstools to huge communal tables, we've got what you need to take your cafeteria to the next level.

# SCHOOL SPIRIT

You say Maize and Blue? We say why not? The sky's the limit when it comes to customizing our chairs. Dress them up with laser-cut or engraved designs. Match a metal or wood finish to any color you choose. Add your own upholstery. We're known for the quality and ease of our custom orders, and our convenient US facility means even one-of-a-kind orders can be delivered quickly and cost-effectively.

## LOGO ENGRAVING

From logos to unique designs, we can do it all. Pricing for custom work must be discussed with the factory and will vary based on graphics/designs, and size of the project.

## CUSTOM COLOR

We can match any color to fit your school. Here are a few popular university colors to reference.

RAL 1006

RAL 5003

RAL 3011

RAL 6005

RAL 3002

RAL 2004

RAL 5013

RAL 2000

RAL 3007

RAL 5015

# MEDIA CENTERS & LIBRARIES

These multifunctional spaces have a wide variety of uses, from solo research to project meetings, and even casual events. These dynamic areas need to be hardworking, connected, and comfortable. From lightweight furniture to power enabled communal tables, we work hard to create products that support modern day libraries and media centers.

# *MAKE IT YOUR OWN*

## **Wood**

Beautiful, natural, and warm to the touch, real wood makes every chair unique. Our chairs are made of European Beech wood because of its exceptional strength and grain consistency. We give our tables just as much love, hand-sanding, hand-staining, and using locally sourced wood to provide the perfect backdrop for every meal. Our table tops come standard in Maple, but we can use any species.

## **Metal**

Designed to be strong and durable, metal chairs can be gorgeous, too. We hand-tailor, cope, and braze all joints to add even more stability, exceeding strength and durability standards and customer expectations. And with our innovative powder coating line, we can achieve a vibrant, long-lasting finish every time.

## **Upholstery**

It's not just the vast range of fabrics we offer through our partners; it's our COM-friendly attitude that distinguishes us. It's also the vast experience we bring to each chair. We hand-sew and hand-fit fabrics over high resilience foam for superior comfort, appearance, and durability. Any chair, any surface, and any number of fabrics. There's no limit to what we can do.

## **Custom Color Matching**

You say tomato. We say why not? We can match any metal or wood finish you can imagine. Just bring us a swatch and we'll bring your vision to life.

## **Distressing**

Giving chairs and tables that lived-in look requires a little extra attention. We hand-distress each one, just to your liking in either heavy or light, using both traditional and unconventional woodworking techniques.

## **BactiBlock**

A little prevention goes a long way. That's why we offer BactiBlock, an antimicrobial coating that protects against the growth of bacteria, mold, fungus, and other microorganisms on our wood table surfaces. This patent-pending technology uses silver-functionalized clay to resist germs, odors, and stains, providing long-lasting protection.

# *WE'RE HERE TO SERVE*

## **AMERICAN MADE**

We choose to build our furniture in our US facility, using high quality, locally-sourced materials. Building our products here gives us ultimate quality control, utilizing the best American engineering and manufacturing techniques available today. Along with a highly advanced factory, we also employ master-craftsman to build products like solid wood tables and steel chairs.

## **10-YEAR WARRANTY**

Nothing says reassurance quite like the longest available warranty in the industry. All of our products are tested to meet or exceed BIFMA standards and offer a standard 10-year warranty.

## **CUSTOM CAPABILITES**

You say Maize and Blue? We say why not? The sky's the limit when it comes to customizing our chairs. Dress them up with laser-cut or engraved designs. Match a metal or wood finish to any color you choose. Add your own upholstery. We're known for the quality and ease of our custom orders, and our convenient US facility means even one-of-a-kind orders can be delivered quickly and cost-effectively.
