\$\$\$ SUPPORT for P.S. TEACHERS \$\$\$

STEM-CAN Supporters (SCS), Inc., is a 501(C)(3) charitable educational corporation that directly funds principal-approved projects of needy public school teachers in Southern Arizona. SCS appreciates deeply how generously our dedicated teachers contribute to Southern Arizona society.

Rather than asking more from educators or anyone else of merely modest means, SCS simply and frankly asks for financial help **only** from the more fortunate who deeply and practically appreciate the daily dedication of local educators for our youngsters. SCS is very efficiently run by volunteers; we have no payroll, travel, or entertainment expenses at all; all donations go directly for school projects.

One SCS donor has contributed \$500,000 funding more than 800 Southern Arizona public school teacher-proposed and principal-approved projects. This same donor plans to give up to another half-million dollars, but **on a matching basis**. This donor will match your donor funding (up to \$10,000 per school) so that SCS's efficient and admirable direct help for needy teachers' projects can continue.

It is quite likely that this solicitation message comes to you through a local dedicated educator. SCS has no fundraiser and sponsors no expensive fundraising events. We rely only on efficient and straightforward tax-deductible donations from able individuals, companies and organizations who deeply appreciate our direct and efficient approach to helping teachers.

For more details, see SCS operational GUIDELINES for teachers' programs at www.stem-can.org. If you want to donate but have questions, email stem-can@msn.com with Subject "Donation question."
