"When People know the truth their plan fails"

Tanya Hunter Elder

Crown prosecutor, whistleblower turned Justice warrior, Josephine Cashman has devoted her life advocating for Australians.

While an independent advisor Josephine became aware of a blackmail operation for an international plan to use 'Indigenous Rights' to steal the developed countries wealth, resources and liberty.

After providing evidence to both sides of government, Josephine has been relentlessly attacked, yet continues to courageously speak the truth to expose the tyrannical plan to divide and conquer by using our fellow Australians.

One Voice Australia calls on everyday Australians to engage with their friends, family, colleagues and neighbours to expose the plan, and the traitors, to all Australians.

ELDERS EXPOSE THE PLAN TO TAKE OUR LAND AND OUR COUNTRY

"We need to Unite as one"

Tammy King Wilcannia Elder

Plan: Divide the People

There is a global 'Divide to Conquer' agenda across the developed world including Canada, USA, NZ & Australia.

Tax haven billionaires plan to strip the developed world's wealth & resources.

Taxpayer funds are siphoned from Aboriginal Australia by corrupt Aboriginal corporations controlled by the UN. The corrupt corporations own all UN Communal Native Title land, preventing Australians from private property ownership that keeps Aboriginal people in 3rd world conditions.

The plan is to steal our private property rights by using UN Communal Native Title that will cover all of Australia by 2030.

The traitorous, compromised political class sold out to tax haven billionaires who want to control our resources. Using a phoney UN 'Human Rights' system, UNDRIP, UNESCO, WHO, and 40,000+ NGOs in order to steal Australia's wealth.

Using vulnerable populations, fear and guilt they plan to shame us into accepting Global Governance.

Divide our country

By changing our Constitution to divide Australia.

Voice & treaty to create 'First Nations' 'Tribal' regions to be controlled by fake claimers, leaves Australia open to crooks to asset strip our wealth and natural resources.

The UN plans to redistribute our wealth into tax havens leaving Australia impoverished & enslaved to debt. The same methodology is used in Africa where over \$900+ billion in resources is exported while Africa is in \$150 billion debt and the African people starve. This scheme is currently underway in Australia with UN interference using UNDRIP & UNESCO's UN Heritage laws.
