

**Save with a 3-Month, Pre-Paid Commitment
(Frequently Asked Questions)**

How does this discount program work?

First, choose the number of marketing hours needed for a 3-month period (30, 60, 90 hours). Next, pre-pay that amount. Then, start reaping the benefits of having an entire marketing department working for your business.

Can I use hours anyway I choose?

Absolutely. Some months you may have more needs, other months less.

What happens to unused credit hours?

All credit hours should be used *by the end of the 3-month billing cycle*. If credit hours cannot be used before then, they may be “rescued,” or rolled over, by signing a new 3-month commitment.

What happens if I exceed my 30, 60, or 90 credit hour allotment?

No worries. Any overage hours will be billed at the same rate of the plan you select (never a higher hourly rate). A separate invoice will be sent for overage hours only after all credit hours have been depleted (Net 10).

How do I find out my credit balance?

At the end of every month, you receive a detailed statement of services performed and the time associated for each project. Monthly statements will include the remaining credit balance for the billing cycle.

When can I change my plan?

At the end of a 3-month billing cycle. This approach allows you to scale hours up or down based on your exact business needs.

Plan Type	Discount	Discounted Hourly Rate	Pre-Paid Hours	Plan Cost
Good*	10%	\$112.50	30 credit hours	\$3,375.00
Better*	20%	\$100.00	60 credit hours	\$6,000.00
Best*	36%	\$80.00	90 credit hours	\$7,200.00

I, _____ (an authorized company representative), on behalf of _____ (company), agree to hire The Marketing Department using the pre-paid plan type of _____ (Good, Better, Best) which provides _____ (30, 60, 90 credit hours) at the cost of _____ (\$3,375.00, \$6,000.00, \$7,200.00). At the end of every month I will receive a detailed statement of services performed with the time associated to each. I agree to paying a separate invoice for overage hours, only after all credit hours have been depleted (Net 10).
