

FOH & SUPPORT ROLE

Love meeting people and being part of something hands-on and community-focused? We're looking for warm, practical volunteers to help out at our Repair Café – welcoming visitors, managing the refreshment table, keeping things running smoothly, and supporting the repair magic behind the scenes.

What you'll be doing:

- Greeting visitors with a smile and helping them understand how it all works
 - Checking items in and matching them with the right repairer
 - Making tea and coffee (essential fuel for repairers and guests!)
 - Keeping the space tidy and organised during the session
- Chatting with attendees and helping create a friendly, relaxed atmosphere
 - Helping set up before and pack down after the event

When can you help?

Our Repair Cafés usually run on the third Saturday of the month from 10am until 1pm. Whether you can help regularly or just now and then, we'd love to have you join the team. You can also arrive a bit early or stay late to help with setup and tidy-up if you're able.

What's in it for you?

- Be part of a welcoming, community-focused event
- Meet new people and enjoy great conversations
- Learn more about repair and sustainability (no technical skills needed!)
- Gain confidence in a public-facing, supportive role
- Free tea, cakes, and plenty of good vibes!

Training and support:

You don't need special skills – just a friendly attitude and a willingness to muck in. We'll show you the ropes, walk you through the check-in process, and make sure you always feel supported. You'll be volunteering alongside a friendly team who've got your back.

Why it matters:

Repair Cafés help reduce waste, save money, and bring people together. As a helper, you make it all happen – from creating a welcoming space to making sure everyone feels included and valued.

YOU'RE THE REASON PEOPLE COME BACK
