Turning Upholstery into Art

Acoustic tiles & Acoustic Ottomans Australian manufactured 20mm acoustic tiles. Wrapped in the colour of your choice. Turning upholstery into Art Our tiles are light weight plieable making them easy install.

At a Bitnice our acoustic tile range is a absorbing wall panel designed to control echo and reverberation in areas with hard surfaces. Our acoustic tiles improve the quality of the environment due to the products ability to absorb echo and reverberation. We have carefully selected the Laines piccolo range which gives these a very simplistic finish. "Yes bringing back fabric wrapped panels at a competitive rate" We also offer custom designs and sizes, including various fabrics and leathers.

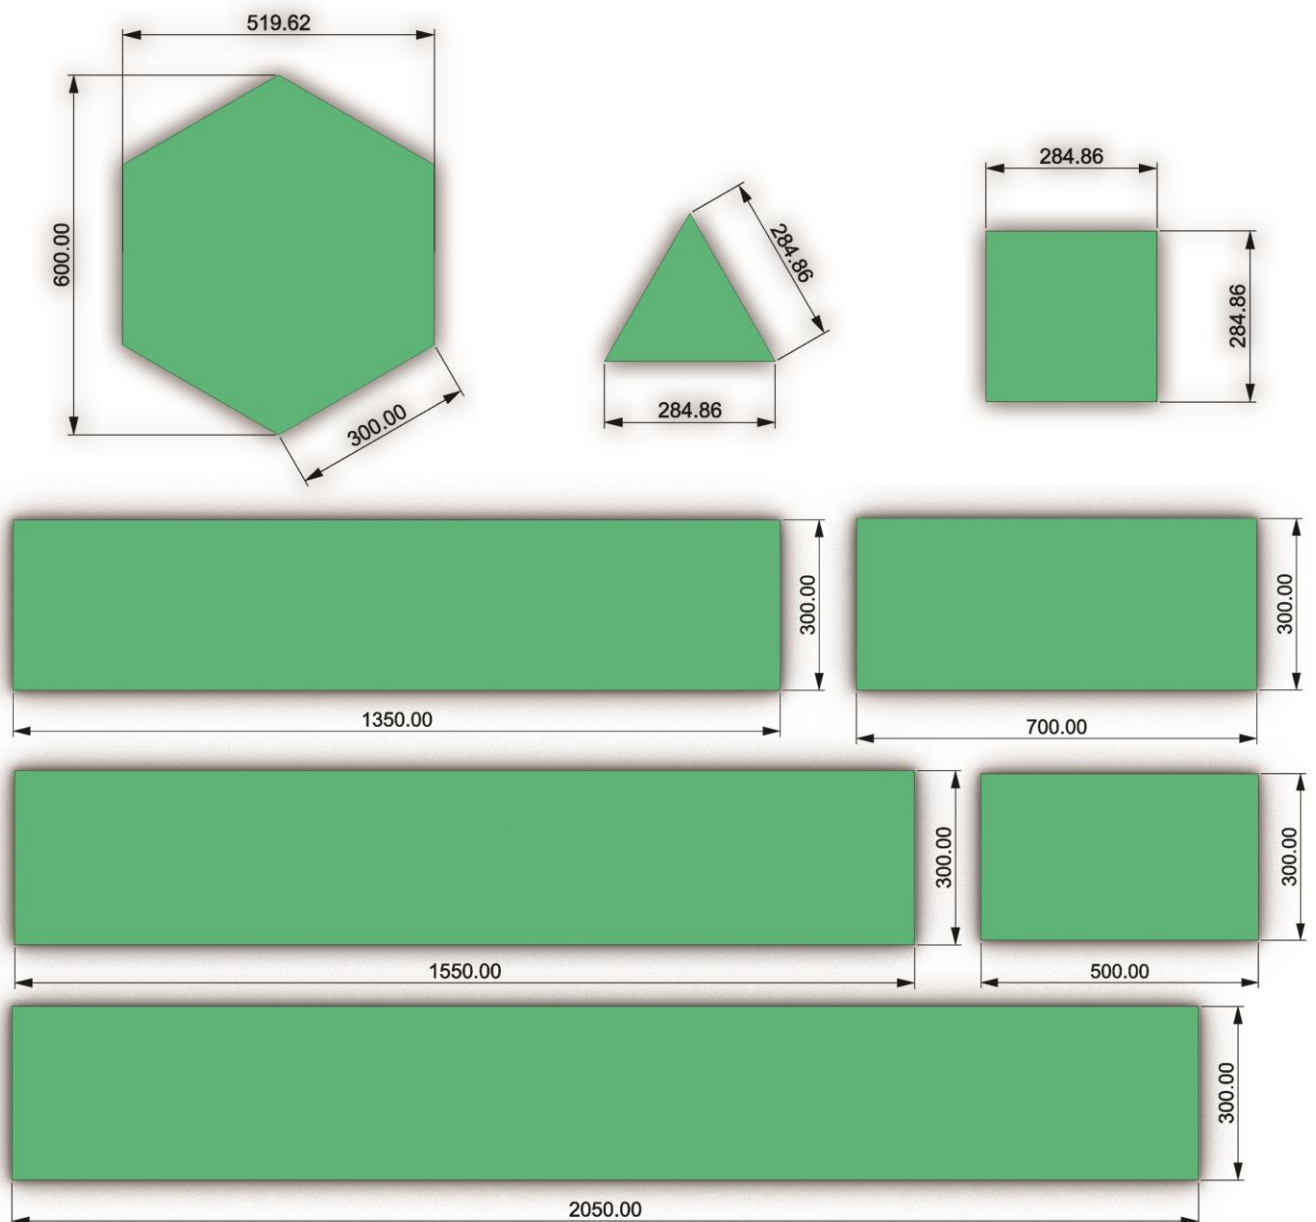

What makes it a **BITNICE**

Cnc cut lightweight foam tiles, fabric wrapped by our quality craftsman in a range of colours of your choosing.
Our tiles use a sound absorbing foam to ensure they are effective acoustic absorbers as well as visually stunning
