INTRODUCTION

OUR NEW RELEASE PRODUCTS.

VISION

To have a disaster resilient community.

MISSION

Provide the best equipment for disaster, whether natural or manmade, in order to prevent or minimize human losses and damage to properties.

OUR SELECTION

01 Rescue Vehicles

Airport firetruck, municipal firetruck, ladder firetruck, rescue truck, ambulance, rescue boat, rescue pick-up

03 Fire Fighting Equipment

Personal protective equipment, fire suits, thermal imaging, ultra high pressure system, first attack backpack, rescue tools

05 Emergency Vehicles

Command vehicle, mobile hospital, mobile kitchen

08 Water Purification Equipment

Water purifier, portable microbiology test

02 Urban Search and Rescue Tools

Hydraulic extrication tools, stabilization management system, collapsed structure, special products

04 Medical Emergency Equipment

Automated external defibrillator, field hospital, decontamination equipment

06 Natural Disaster Management Equipment

Vacuum truck, water lily harvester, spider excavator, amphibious excavator

09 Surveillance Systems

Bodyworn camera, body scanner, facial recognition, fever scanning, unmanned aerial vehicle

07 Heavy Equipment

Manlift, crane, mobile batching plant, asphalt patcher

10 Communication Systems

Hyper hybrid communication, rapid deployable communication network

RESCUE VEHICLES

ROSENBAUER

32m AERIAL LADDER FIRE TRUCK

- 450kgs rescue cage
- Horizontal vertical jacking system
- Innovative articulated boom
- Compact action radius
- Ideal for tight spaces

MADE IN AUSTRIA

ROSENBAUER

56m AERIAL LADDER FIRE TRUCK

- 450kgs rescue cage
- Horizontal vertical jacking system
- 56m working height
- With elevator for up to 3 persons
- Up to 20-storey building

MADE IN AUSTRIA

ROSENBAUER

FIRE FIGHTING VEHICLE

- 5,000L water tank capacity
- 500L foam
- 4x4
- Completely built unit from Austria

MADE IN AUSTRIA

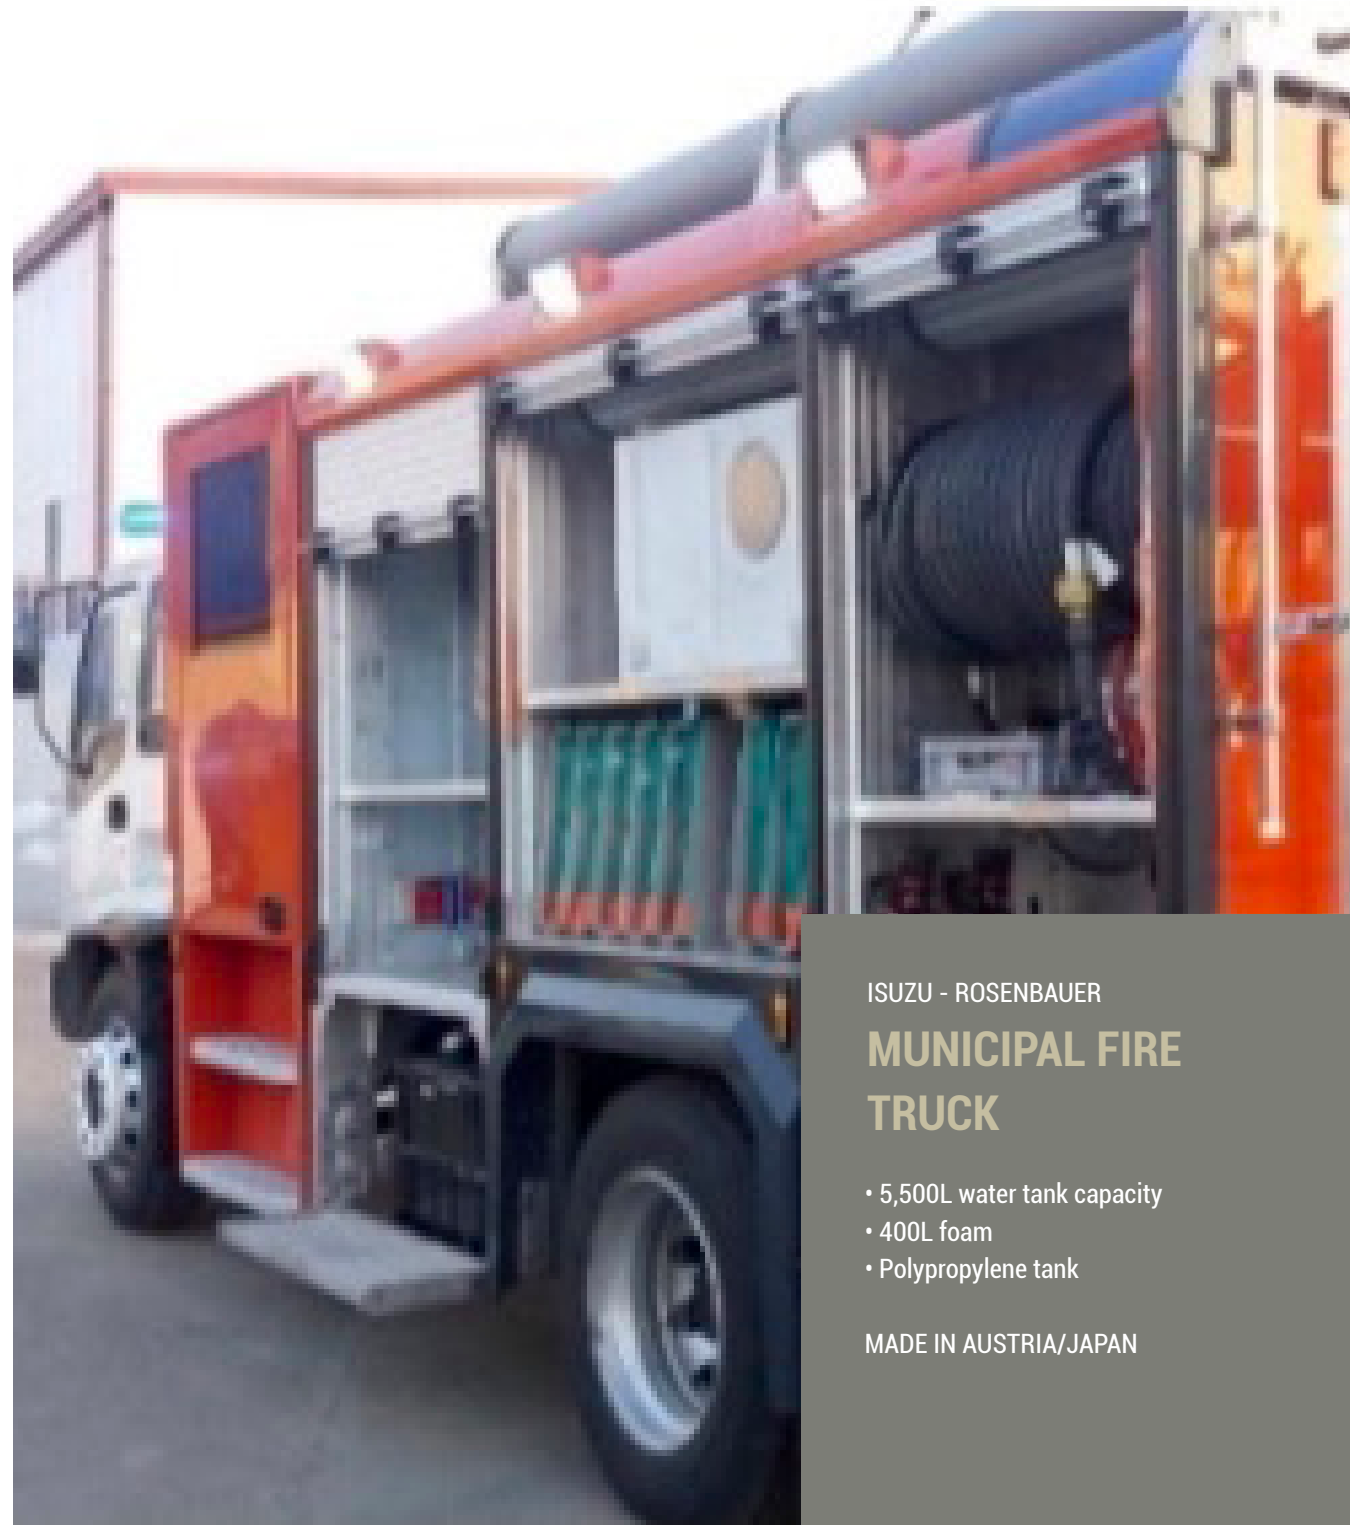

ROSENBAUER

PENETRATOR FIRE TRUCK

- 1,000L - 2,000L water tank capacity
- Quick attack
- Completely built unit from Austria

MADE IN AUSTRIA

ISUZU - ROSENBAUER
MUNICIPAL FIRE TRUCK

- 5,500L water tank capacity
- 400L foam
- Polypropylene tank

MADE IN AUSTRIA/JAPAN

ISUZU, MITSUBISHI, ROSENBAUER.
TOYOTA

RESCUE PICK-UP

- Complete with Weber rescue tools

MADE IN AUSTRIA/JAPAN

FORD

TRANSIT STAGE III

- Equipped with medical wall cabinet, collapsible and scoop stretchers, stainless ramp, divider with sliding window and Automated External Defibrillator (AED)
- Inclusive of medical consumables with the necessary medical devices for the emergency treatment of patients such as first aid kit, minor surgical kit, and nebulizer kit

MERCEDES BENZ
AMBULANCE

- Meets international safety standards
- Rear ambulance compartment can be configured to meet even the most demanding configurations
- Include main and secondary folding stretchers, ceiling mounted IV hooks, electrical power outlets, storage cabinets for medical equipment and supplies, sphygmomanometer and much more.

MADE IN EUROPE

SHERP
AMPHIBIOUS VEHICLE

- Driven by Kubota Turbo Diesel - 1.5L 44HP engine
- Climbs up to 35' slope
- Consumes 2-3L per hour
- Aluminum body
- * Capacity: 1 Ton
- Floats on water

MADE IN UKRAINE

HYUNDAI, KIA, MITSUBISHI, NISSAN, TOYOTA

LOCAL AMBULANCES

- Equipped with basic life support equipment providing clinical interventions on the scene for seriously ill patients and transporting people to hospital in an emergency

RESCUE ONE
RESCUE BOAT

- Connect to any number of boats to form any size and shape floating platform for any mission
- Length: 5m
- 8-person capacity
- Outboard motor, 50HP engine
- With transport trailer

MADE IN USA

HOV POD
HOVERCRAFT

- Fully amphibious. No submerged propeller that could get damaged during operations.
- Can operate in shallow water and over mud swamps, grass, riverbeds, floods, with speed up to 45mph
- Fast response without concern to water depth or other surface limitations in its path
- Ideal for humanitarian rescue or relief distribution during flooding

MADE IN UK

01

WEBER

CUTTERS

- With an opening up to 300mm
- Maximum of 1,100 kN cutting force
- 360° rotating and folding handle
- For smooth, low-stress and safe cutting behaviour
- Cutter with low weight and high cutting performance
- New plus inserts for easier blade changes
- Battery operated available

02

WEBER

SPREADERS

- With a spreading distance up to 810mm
- Maximum of 857kN spreading force
- 360° rotating and folding handle made from glass fibre reinforced
- Plastic is suitable for use in the tightest of spaces
- Lightweight and slim construction
- Tips with interior and exterior spikes for extra grip
- Plastic grip with optimized gripping surface insulates the equipment operator up to 1000 Volts
- Battery operated available

03

WEBER

RAMS

- Single-stage rescue ram for pushing and pulling
- Optimum length matching
- Overlapping length of the entire range of rams
- Movable head, which still can be rotated under load
- Various accessories available, such as adapters and chain sets
- With integrated remaining length indication on the piston rod
- The remaining length is always easily visible
- Extended length from 850mm up to 1,810mm
- Battery operated available

04

WEBER

STANDARD POWER UNITS

- A high oil volume (6.5 l)
- Nominal pressure up to 700 bars
- The double hose reel with ultra-high-pressure hoses
- Integrated retraction feature is available in different versions and lengths.
- Large peripheral carry handle and the directly integrated tool holder
- Units particularly user-friendly.
- High-performance electrical power unit
- High operation speed
- Simultaneous operation of two devices (turbo-speed)
- With twin or coax hoses, available in different lengths

HYDRAULIC EXTRICATION TOOLS

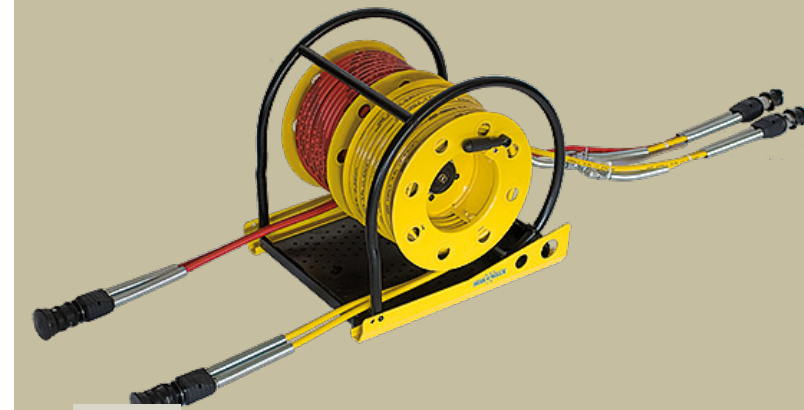

WEBER

COMPACT POWER UNITS

- Handy compact power unit with 4-stroke petrol engine
- Nominal pressure up to 700 bars
- Small and lightweight
- Can be used with all equipment
- Sturdy carry frame
- High output – quick work
- With ECO mode for particularly energy-saving

© WEBER RESCUE SYSTEMS

06

WEBER

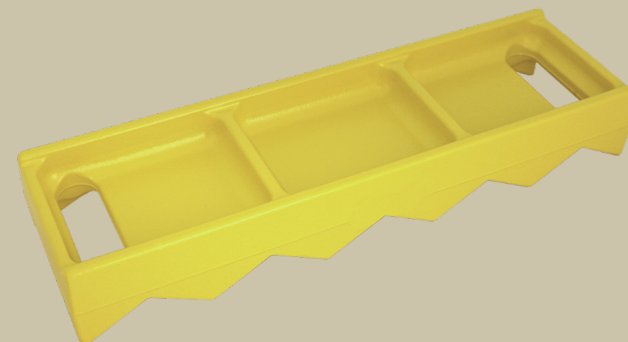

HOSE REELS & HOSES

- Equipped with the tried-and-tested coupling
- Available as twin or COAX hoses, in various lengths and colours
- Complete with ultra-high-pressure hose pairs 2 x 20m, 1 x 20m
- Both reels can be pulled out independently
- Oil-filled, vulcanised as a pair
- Available in various lengths and colours

WEBER

ACCESSORIES

- Extensions for rescue rams
- Sill support for rescue ram
- Sill front support for rescue ram
- Sill back support for rescue ram

01

WEBER

STAB-FAST

- Simple and versatile stabilisation system
- Weight-saving through aluminium construction
- Numerous height adjustment options
- Automatic locking
- Pneumatic dampening of the telescopic section
- TÜV and CE approved
- Straightforward, rapid set-up
- Closed length 1.070 mm
- Extended length 1.720 mm
- Max. load 1.500 kg
- Strap length 5.000 mm

STABILIZATION MANAGEMENT SYSTEM

02

WEBER

STAB-PACK

- For securely shoring up vehicles
- Simple handling - more safety
- Can be adapted to different shapes thanks to the two wedges
- Permissible load up to 7 kg/cm²
- Safety due to large stand
- Dimensions L/H/W - 270 x 180 x 310 mm

03

WEBER

STAB-LOCK

- For almost all practical Stabilisation operations
- Waterproof bonded beech plywood
- LEGO-block principle
- Compatible with STAB-PACK system

04

WEBER

STAB-FIX

- Elements made of recycled PE for various stabilisation
- Durable and shatterproof
- Oil- and chemical resistant
- Maximum load capacity up to 110 kg/cm²
- No slipping because of pyramid design

STAB-FIX 4-SQUARE SET

- Nine plastic parts within one set for various stabilisation
- Durable and shatterproof
- Oil- and chemical resistant
- Maximum load capacity up to 110 kg/cm²
- With transport bag

WEBER

AIR LIFTING BAG

- Versatile medium-pressure
- From 430mm up to 610mm lifting height
- Distribution of the lifting force over a wide area
- Lifting capacity of 3tons up to 6.7 tons
- Easily repairable in the event of damage
- Constant lifting force over the entire lifting stroke
- Extremely fast filling and emptying
- Also available as sets with all necessary accessories

03

WEBER

FLAT BAG

- 4 different sizes with lifting forces from 21 to 64 tons
- Consistent lifting force over the entire lifting stroke
- Flat support area - high stability
- Conical and reinforced protective edges for more safety
- Up to three lifting bags can be stacked - large lifting height

COLLAPSE STRUCTURES

WEBER

RESCUE STRUTS

- Lightweight
- Simple construction
- Flexible applications
- Sturdy struts in different sizes
- Manual and pneumatic operation possible
- All parts are free of any losses

WEBER

SPECIALIZED BATTERY-DRIVEN RIT-TOOL

- Flexible specialized tool for RAPID INTERVENTION TEAMS to provide quick forcible entry
- Fully-featured battery combi tool with interchangeable tips depending on the application
- High strength and lightweight blades for optimum cutting performances
- Opening distance 215mm to 380mm

03

WEBER

COMBI TOOLS

- All with one tool - cutting, spreading, pressing and pulling
- Trussed grid structure blades
- Extremely lightweight combi tool
- Re-sharpenable and with a notch for cutting round bars
- Tips can be detached
- 360° rotating and folding plastic grip insulates
- All control elements are designed in high visibility and distinctive in red
- Can be combined with chain set and mechanical rescue cylinders
- Spreading width 270mm to 405mm
- Spreading force 31kN to 1071kN
- Pulling force 36kN to 58kN
- Certified per EN-13731

WEBER

E-FORCE BATTERY TOOLS

- Lightweight, handy and flexible due to the replaceable rechargeable battery
- Complete independence from power units but maximum power for rescue operations
- Efficient drive system offers higher speed
- Intelligent switching technology between the pressure stages ensures faster work
- Modern and powerful 28 V Li-ion rechargeable battery technology guarantees a long life
- Easy to handle even in areas that are difficult to access

SPECIAL TOOLS FOR SPECIAL RESCUE OPERATIONS

E FORCE

01

WEBER

BATTERY-DRIVEN SPREADER E-FORCE 3

- Three different types of tools available
- Spreading width from 610mm to 735mm
- Comply with EN and NFPA classes
- With connection point for conversion to hose tools
- Batteries need to be ordered separately

E FORCE

02

WEBER

BATTERY-DRIVEN CUTTERS E-FORCE 3

- Four different devices available
- Opening width from 160 to 260 mm
- Comply with EN and NFPA classes
- With connection point for conversion to hose tools

E FORCE

03

WEBER

BATTERY-DRIVEN COMBI TOOLS E-FORCE 3

- Three different devices available
- Spreading width from 270mm to 405mm, pulling force to 58kN
- Comply with EN and NFPA classes
- With connection point for conversion to hose tools

E FORCE

04

WEBER

BATTERY-DRIVEN RESCUE RAMS E-FORCE 2

- Four different types of tools available
- Single and double acting
- Closed length from 540mm
- Extendable up to 1500mm

E-FORCE BATTERY TOOLS

01

WEBER

CONCRETE CRUSHER BC 250

- Special device for the most difficult applications
- Suitable for quickly breaking thick concrete lumps
- Grip and protective guard can be rotated, replaceable tips
- Opening distance 250mm

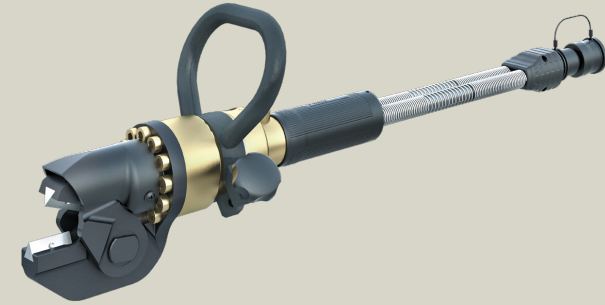

02

WEBER

C 100-31

- Special cutting device for rapid subsequent cut
- Specialised tool for continuous cutting, e. g. on busses, trains, coaches, trailers, etc.
- With special space to release the cut material
- Several teeth prevent the material from slipping out
- Opening distance 120mm

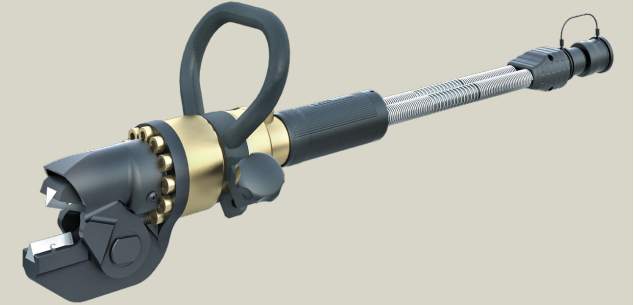

03

WEBER

S 25

- Compact and versatile cutter
- Replaceable carbide inserts for cutting locks, chains, etc.
- Suitable for cutting through metal rods and reinforcement
- Single-handed use
- Opening distance 25mm

04

WEBER

POWERWEDGE SPK 250

- Wedge-shaped hydraulic spreading device
- Creates initial openings in the smallest gaps for lifting cushions
- Insertion height only 8 mm
- Up to 61 mm lifting height and lifting force 25 t

SPECIAL TOOLS FOR SPECIAL RESCUE OPERATIONS

01

WEBER

RESCUELIGHT LED 28V

- Rechargeable battery operated lighting for precision
- Illumination of the operation site
- Each spotlight can be individually tilted and angled
- 50 Watts per LED spotlight, 12000 lumens (total)
- Power supply via replaceable rechargeable battery (28 V Milwaukee)
- Illuminates for approx. 35-40 minutes with a 5.0 Ah battery
- Fold-out, rubberised feet ensure stability
- Including a mount for standard tripods and carrier frames
- Batteries not included
- Dimension: 430 x 120 x 370 mm

02

WEBER

RESCUE PLATFORM

- For working on hard to reach areas of application
- Sturdy aluminium construction, height-adjustable ladder ends
- Lockable in 265mm steps
- Height of strut extensions can be independently adjusted in 30 mm steps
- Per DIN 14830
- Dimension: 1050 x 1790 x 280mm
- Platform height: 880 - 1700mm
- Max. permissible load: 500,0kg

03

WEBER

HALLIGAN-TOOL

- Ideal accessories for technical rescue
- Available with metal cutting claw or leverage claw
- Two lengths available - to enable flexible use
- Many possible uses
- Non-slip surface on the bar

04

WEBER

BREAKING TOOL SET

- Combination of striking tool and Halligan tool (length 770mm)
- Velcro strap included in the set for binding and as a carry aid
- Dimension: 930 x 220 x 160 mm

SPECIAL TOOLS FOR SPECIAL RESCUE OPERATIONS

ROSENBAUER

ROBOTIC FIRE FIGHTING

- Modular
- Dimensions: 1200 x 800mm
- Unique payload exchange system
- Capacity: 650kgs
- Wireless remote control
- 2 x 48 volts electric drive
- With 3.5 inches display for standard and thermal cameras

MADE IN AUSTRIA

FIRE FIGHTING EQUIPMENT

ROSENBAUER

FIRST ATTACK BACKPACK

- Capacity: 10L
- Flow rate: 10L/min

MADE IN AUSTRIA

02

ROSENBAUER

ULTRA HIGH PRESSURE SYSTEM (UHPS)

- 38L/min at 100 bar
- Foam and mixing system 0 to 6%
- 60m high pressure hose
- 130L water capacity
- 20L foam capacity
- Foam is 10-20 times more effective than pure water

MADE IN AUSTRIA

03

AVON PROTECTION

THERMAL IMAGING

- The lightest large screen camera ever developed
- 3.5' LCD display at max weight of 865g
- Direct temperature measurement
- Search and rescue application
- Temperature -40°F to 1,400°F
- Easily integrates with firefighter PPE

**HEARTSINE
 AUTOMATED
 EXTERNAL
 DEFIBRILATOR (AED)**

- Lightweight and portable
- Provides electric shock through the chest to the heart
- Increases survival rate as high as up to 80%

MADE IN UK

For emergency medical services

**STRYKER
 DEFIBRILATOR**

- For military, hospital and EMS
- Integrated carbon monoxide and methemoglobin
- 12-lead ECG transmissions via the LIFENET system

MADE IN UK

**STRYKER
 CHEST COMPRESSION
 SYSTEM**

- Higher EtCO₂ values compared to manual CPR, indicative of higher chance of ROSC

MADE IN SWEDEN

KARCHER

MOBILE KITCHEN

- High energy efficiency modules with closed combustion chamber
- Easy operation
- Ready for fast use
- Full underbody protection
- High IP rating (min. IP55)

MADE IN GERMANY

03

ZEPELIN

MOBILE HOSPITAL

- Fast and effective assistance in the event of natural disasters
- Can be equipped with various functions and facilities for medical services
- Pneumatic tent (optional)

MADE IN GERMANY

EMERGENCY VEHICLES

PRODUCT NAME

COMMAND VEHICLE

- 4x4 MAN Diesel
- Configurable surveillance equipment
- Highly customizable

MADE IN POLAND

FLOOD CONTROL EQUIPMENT

IMV CORPORATION EARTHQUAKE MONITOR

- Real time monitoring
- DPWH IRR Compliant
- For airports, dams, and all public buildings

MADE IN JAPAN

JPN-1052

2015/12/5 14:34:41
In seismic
monitoring

HYTRANS

FLOOD PUMP

- Access to any open water at a horizontal and vertical combination distance of a total of 60m
- Maximum system capacity: 50,000L/min at 0.3 bar

MADE IN GERMANY

RING-O-MATIC

VACUUM TRUCK

- Mounted on 10 or 6 wheeler truck
- For potholing
- To clean out storm drains, catch basins and valve boxes
- Cleaning up drilling fluids and mud
- Spoils capacity of 1,300 gallons
- Also available in 2,000 gallons

MADE IN USA/JAPAN

RING-O-MATIC

VACUUM TRAILER (ANTI-FLOOD)

- To clean out storm drains, catch basins and valve boxes
- Environmental clean-up; everything from typhoon aftermath to oil spills
- Spoils capacity of 550 gallons

MADE IN USA

KAISER

SPIDER EXCAVATOR

- 4x2
- With hydraulically adjustable legs - offer optimal support
- Steering wheels can be quickly removed for stability in extreme terrain
- Unattained lifting and slewing forces
- Fast and precise hydraulics
- Rugged steel construction
- Superior stability

MADE IN LIECHTENSTEIN

AQUAMARINE

TRASH SKIMMER WATER LILY HARVESTER

- For the removal of aquatic weeds and floating debris from water reservoirs, ports, rivers and lakes
- Found hars at work in 37 countries around the world
- Made of stainless steel

MADE IN CANADA

EIK

AMPHIBIOUS EXCAVATOR

- Can be used on land or water
- With "multi-synchronous direct drive" hydraulic motor on each pontoon
- Multiple active motors propelling each pontoon provide superior tracking power, making it virtually undeterred in any terrain

MADE IN AUSTRIA

SOCAGE

MOBILE CRANE

- 35 metric tons lifting capacity with a boom length of 26m
- Can be driven on ordinary roads
- Diesel powered
- Can be used for engineering and rescue works

MADE IN ITALY

HEAVY EQUIPMENT

COMET

MANLIFT

- Rotation of the aerial part is continuous
- 225kgs basket capacity load

MADE IN ITALY/JAPAN

CELA

SPIDER MANLIFT

- Working height: 28m
- Remote control operation

MADE IN ITALY

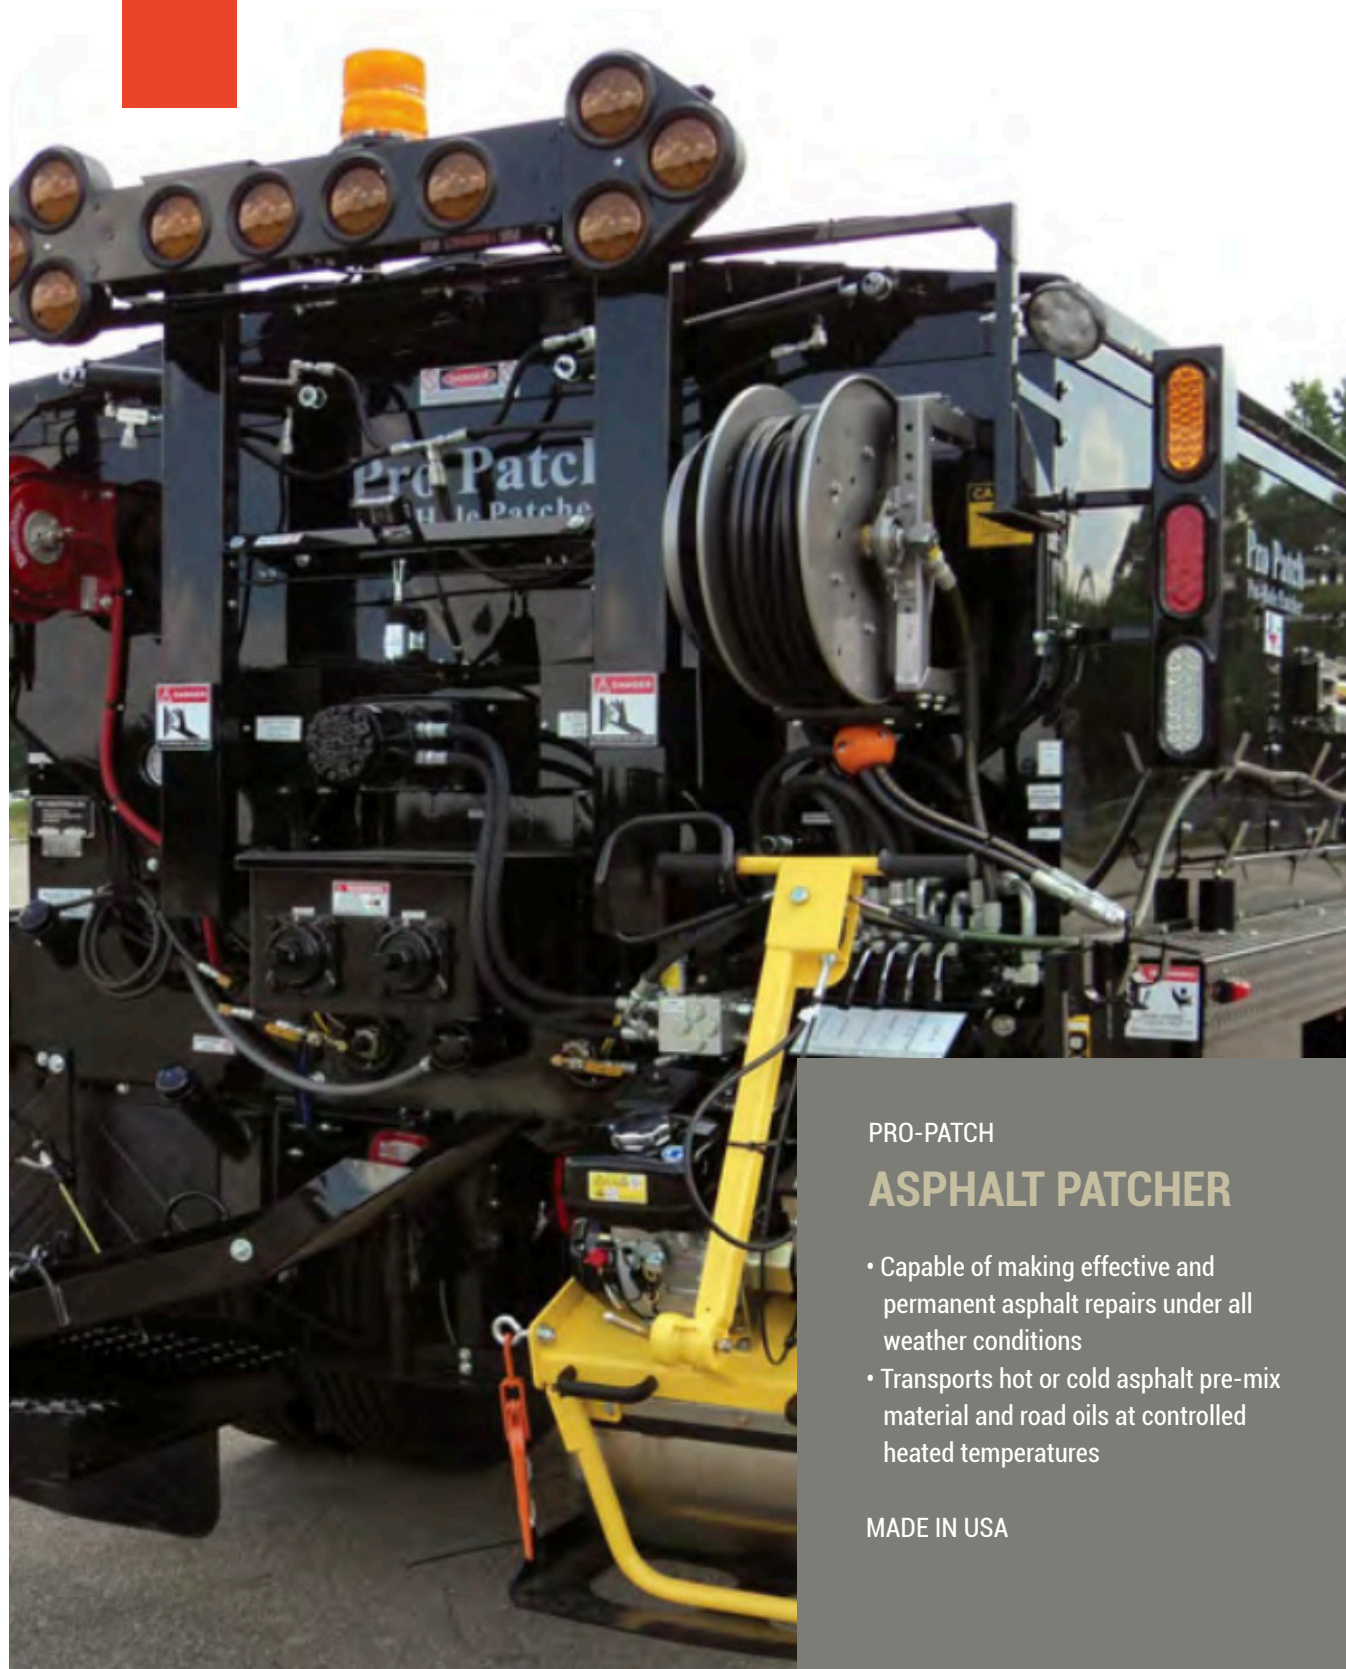

KIMERA

MOBILE BATCHING PLANT

- For concrete and cold asphalt
- Completely computer controlled
- Can be mounted on a truck or trailer

MADE IN ITALY

PRO-PATCH
ASPHALT PATCHER

- Capable of making effective and permanent asphalt repairs under all weather conditions
- Transports hot or cold asphalt pre-mix material and road oils at controlled heated temperatures

MADE IN USA

WATER PURIFICATION EQUIPMENT

KARCHER
**WATER PURIFIER
 (RESERVE OSMOSIS)**

- Removal of particles, microorganisms and viruses
- Removal of salts and chemicals
- Intuitive, easy-operating

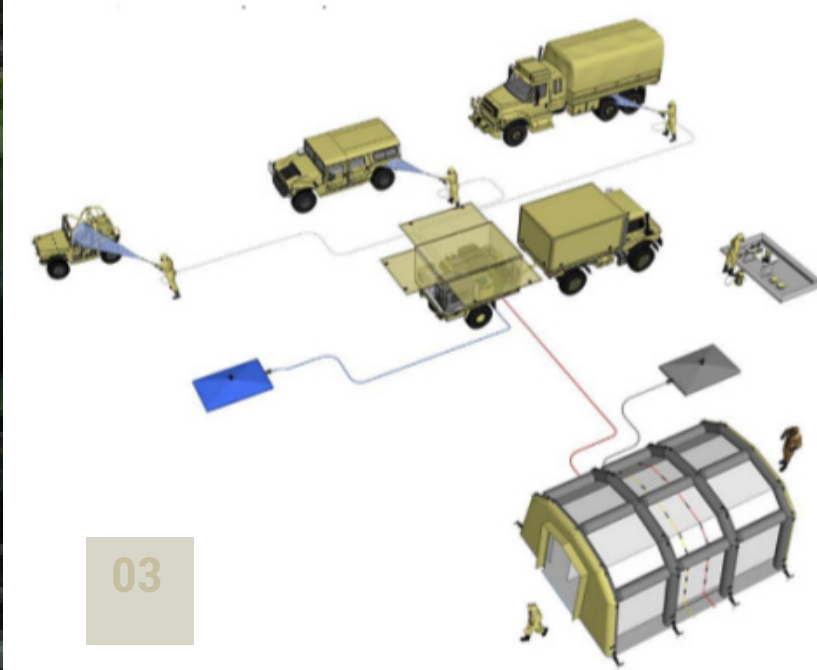

MADE IN GERMANY

OTT AND TECTA

WATER QUALITY MONITORING SYSTEM

- Designed for in-situ and follow-up applications
- Optimized combinations of sensors accessories to suit water quality monitoring applications in all environmental water sources

MADE IN GERMANY

03

KARCHER

DECONTAMINATION EQUIPMENT

- Offers a complete family of high-efficiency, fast-acting agents for the decontamination of highly toxic chemical warfare agents
- For personnel and equipment decontamination

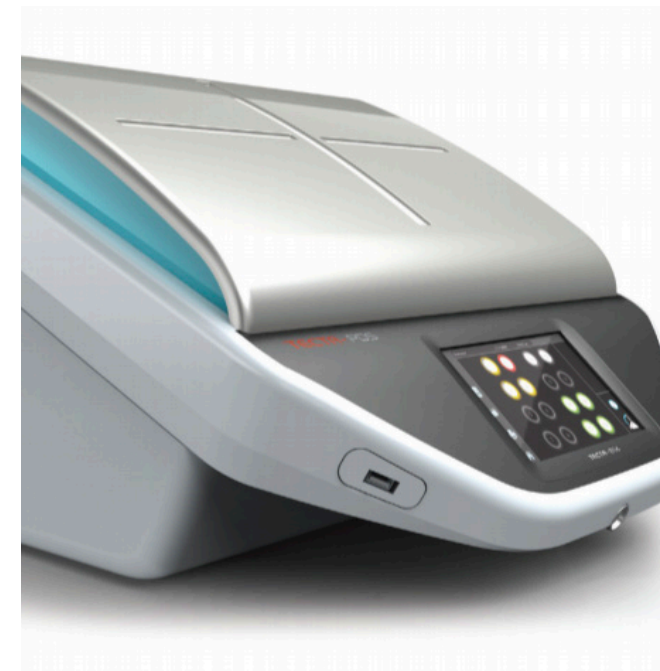

MADE IN GERMANY

KARCHER

WATER PURIFIER (ULTRA FILTRATION)

- Produces drinking water up to 24 hours per day
- Purifies up to 5,000L of water per hour
- Extremely compact

MADE IN GERMANY

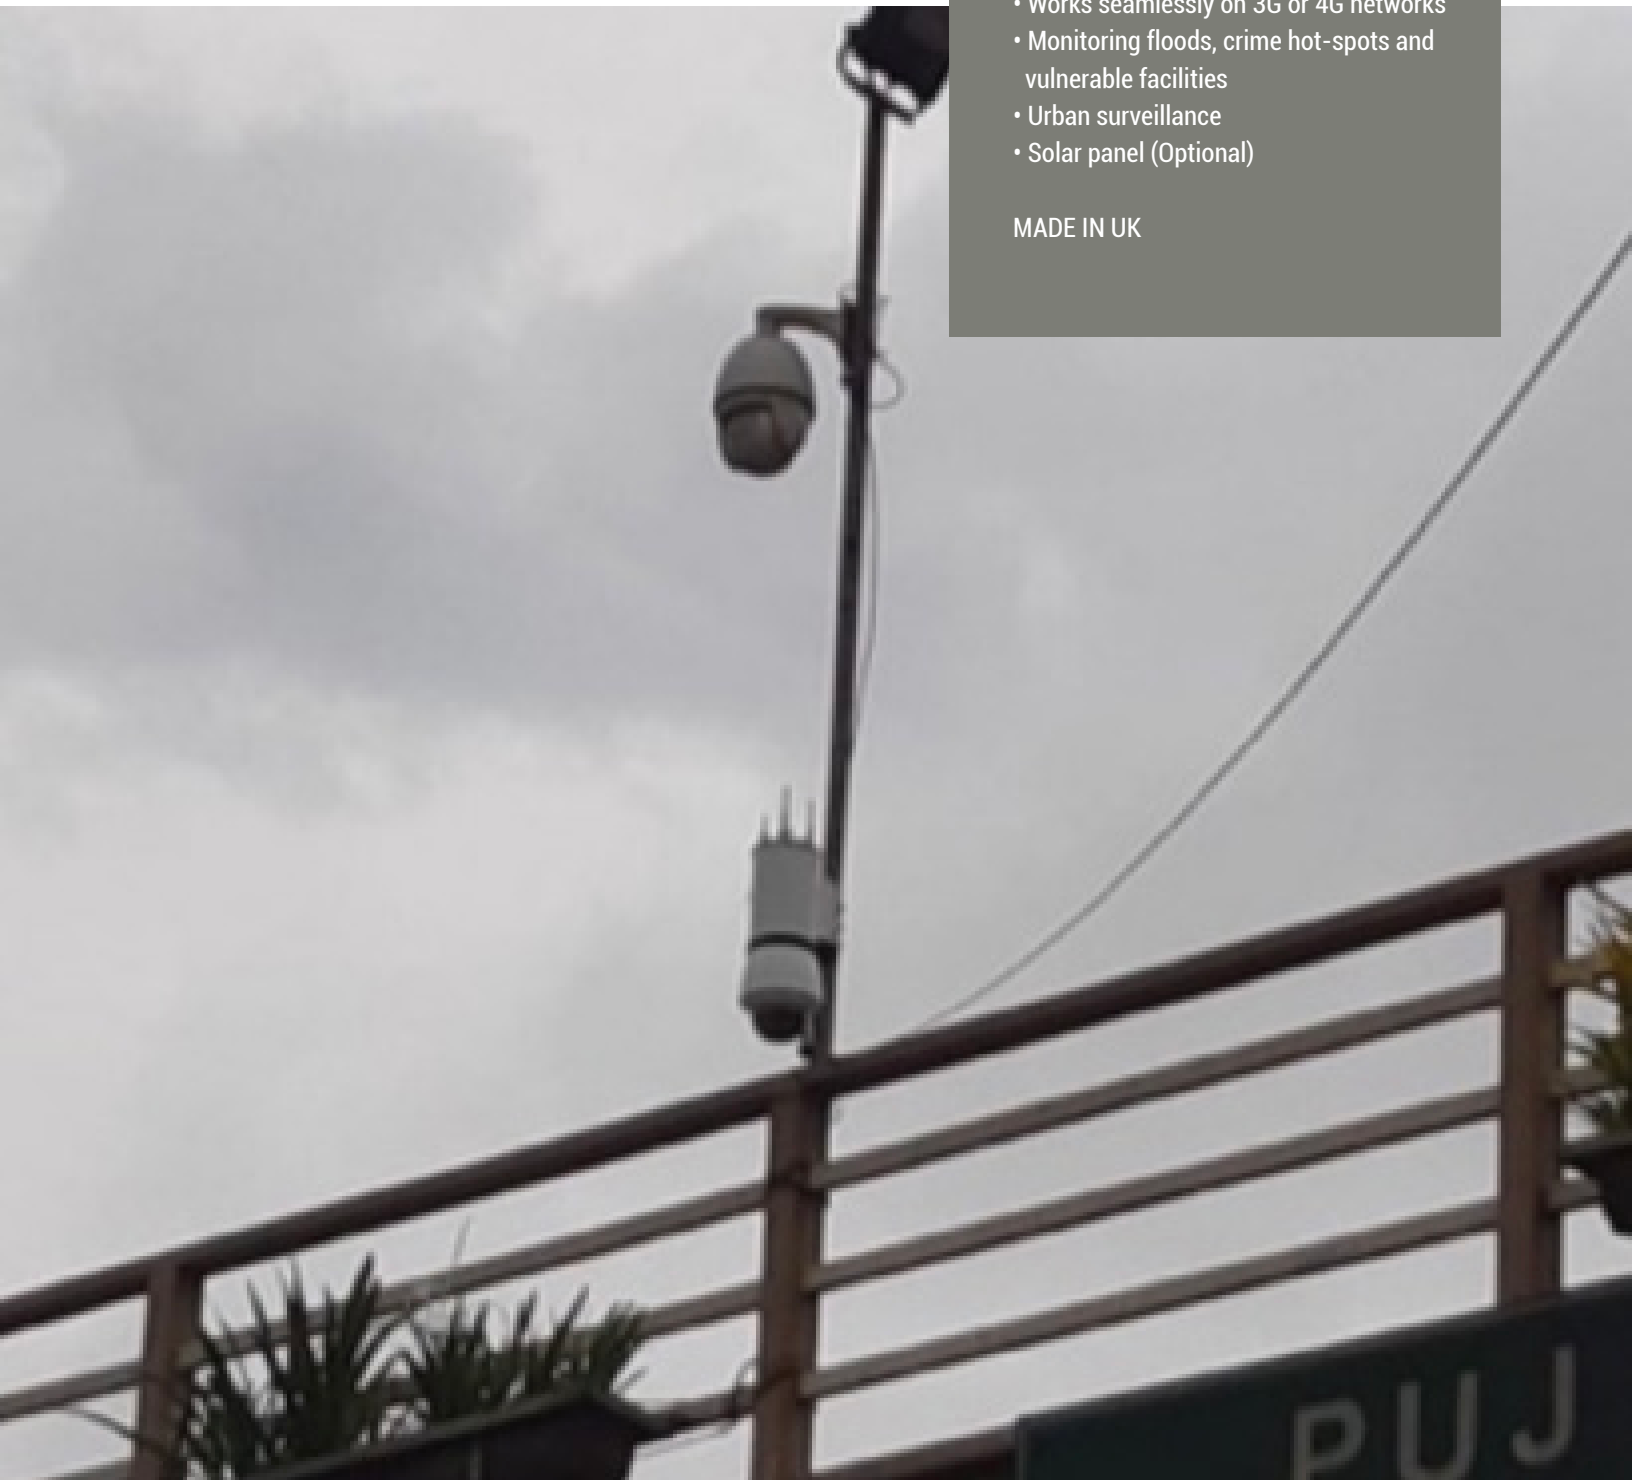

TECTA

PORTABLE MICROBIOLOGY TEST SYSTEM

- No sample preparation or visual interpretation of results required
- Initiate a test anytime
- Simple operation that does not require specialized personnel
- Self-contained desktop packaging

MADE IN CANADA

SURVEILLANCE SYSTEMS

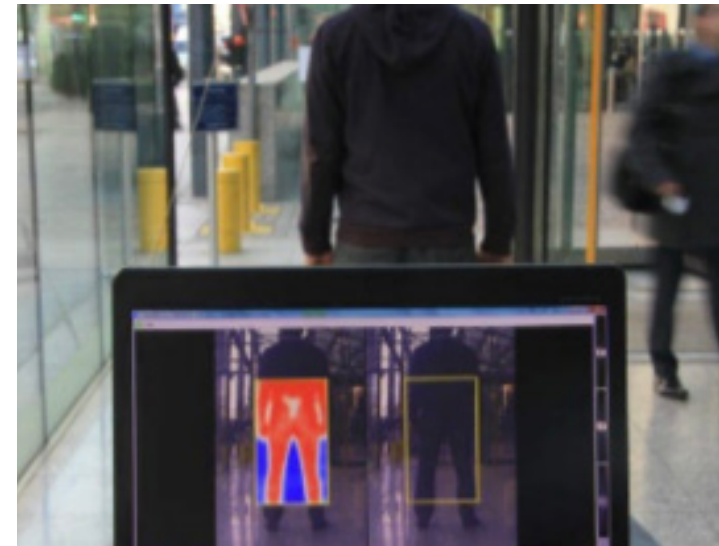

DIGITAL BARRIERS

RAPID DEPLOYABLE CAMERAS

- Works seamlessly on 3G or 4G networks
- Monitoring floods, crime hot-spots and vulnerable facilities
- Urban surveillance
- Solar panel (Optional)

MADE IN UK

THRU VISION

PASSIVE BODY SCANNER

- People screening cameras to combat terrorism
- For weapons, explosives and drug detection (metal, plastic, ceramic, gel, liquid, powder and paper)
- Can be moved quickly and easily to points required

MADE IN UK

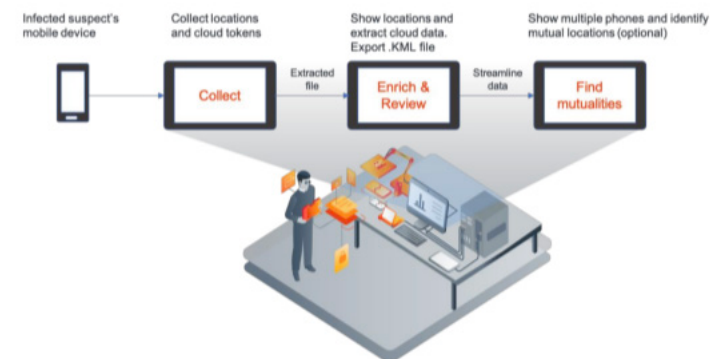

OMNISENSE AND INFIRAY

MASS FEVER SCREENING

- Fever screening at your fingertip
- Audible alert upon detection
- Auto tracking to simplify subject identification
- Live streaming capability (Optional)

MADE IN UK

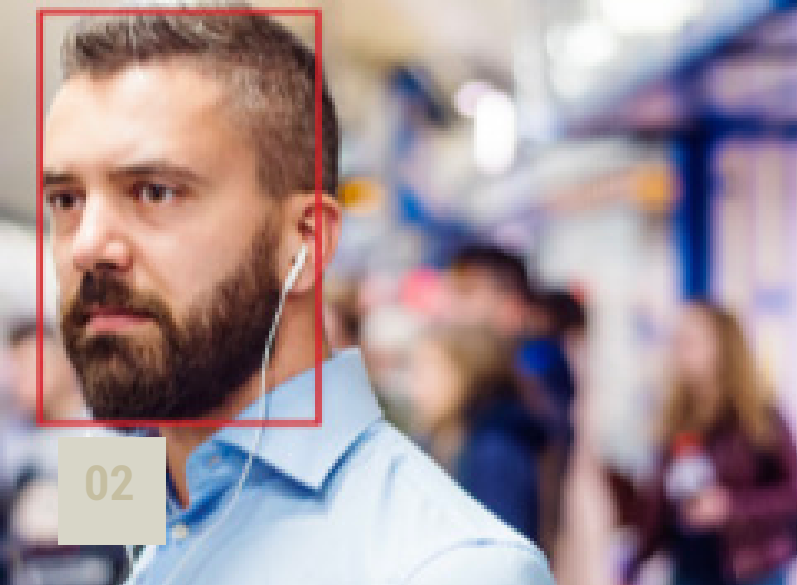

CELLEBRITE, DIGITAL CLUES AND GRIFFIN

MOBILE DATA COLLECTION (CONTACT/ LOCATION TESTING)

- Designed to be fast and accurate in order to reduce time with the device and protect the privacy
- Offers selective location extraction on top of several capabilities

MADE IN ISRAEL

02

DIGITAL BARRIERS

PORTABLE FACIAL RECOGNITION

- To provide early warning identification of criminals and other undesirables at different airports nationwide
- Rapidly deployable in a rugged transport case
- Stand alone

MADE IN UK

03

DIGITAL BARRIERS

BODY WORN CAMERAS

- Real-time live streaming with facial recognition analytics
- Manage in real-time large bodies of users with real-time mapping of exact locations of every user
- Supports transparency in law enforcement and ensures citizens and officers are protected with an evidentially secure recording solution

MADE IN UK

04

ALPHA

TACTICAL UAV HELICOPTER

- Advanced observation platform
- Dual day and night sensor
- Integrated laser range finder
- Long range capability
- High precision geolocation
- Up to 3 hours endurance

MADE IN SPAIN

DIGITAL BARRIERS

SECURITY AND SURVEILLANCE SOLUTION COMMAND CENTER

- Centralized monitoring of nationwide CCTV's
 1. Fixed CCTV
 2. Mobile surveillance vehicle
 3. Body worn camera
 4. Facial recognition
 5. Other surveillance equipment
- Multiple viewing at
 1. Command Center
 2. Laptop
 3. Mobile devices

- Accessible anywhere in the world

MADE IN UK

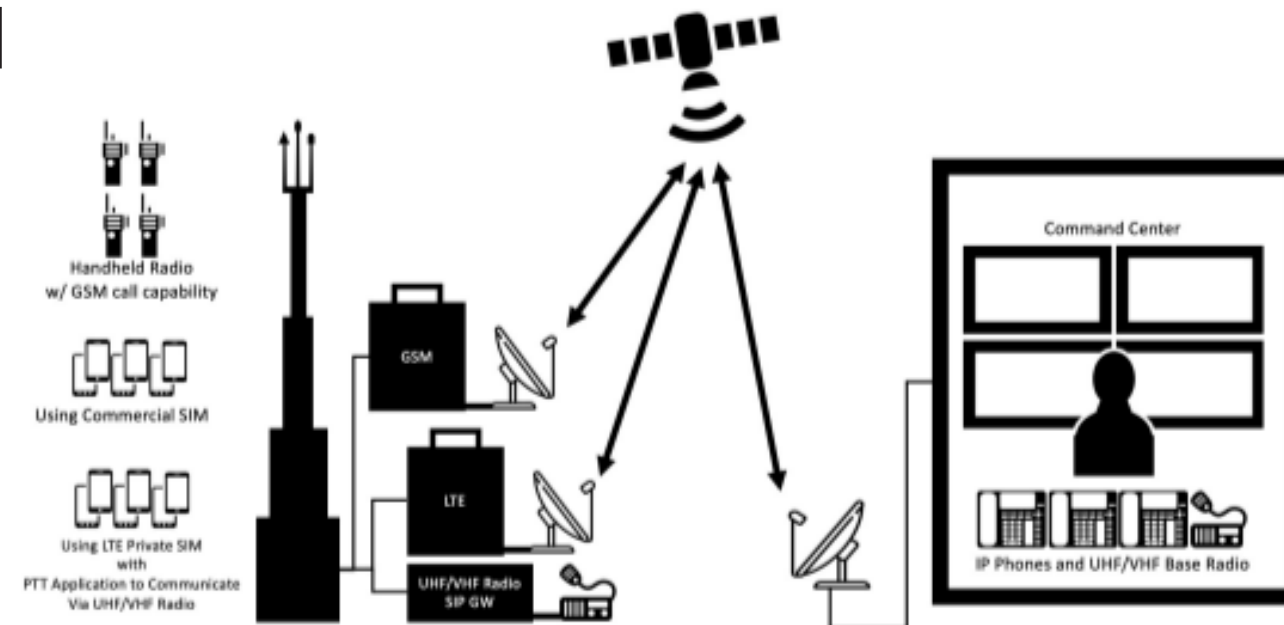

HYTERA

HYBRID HYPER COMMUNICATION

- Both radio and cellphone in one
- Voice, text, videos can be transmitted privately and securely

MADE IN CHINA

COMMUNICATION SYSTEMS

HYTERA

RAPID DEPLOYABLE COMMUNICATION NETWORK

- A portable communication solution during disaster and emergencies
- Provides GSM, 2G, 3G, and LTE signals anywhere

MADE IN USA
