## WHY BARNA GROUP OF COMPANIES ?

### ■ **SPRAY DRYING: An Innovation in Fruit and Vegetable DEHYDRATION.**

Spray Drying offers a great scope for the production of good quality fruit and vegetable powder. Spray drying retains the nutritional value and taste of the final product near natural and also, products from this drying technology will have very less microbial load compared to different drying technology.

### ■ **PURE AND ADULTERATION FREE/ NO SYNTHETIC FOOD COLORS ADDED**

Our Spices and powders are not mingled with any extraneous matters. Even, we don't believe in any malpractice to get more out of a certain quantity of spice by way of manipulating it. We provide 100% purity in our products. Our powders are 100% natural and we don't use any synthetic food colour to reduce the cost of our products.

### ■ **CUSTOMIZED TASTE / PACKAGING**

We are ready to change our taste as per your sense. Major of our powders are customized according to the requirement of our clients because we believe in "Make to order" rather than "Ready Made". We also provide custom size packaging, which satisfies clients needs.

### ■ **ULTRA FINE GRINDING**

As we know that the spice grinding is an art, which requires good sense to preserve its oleoresins. In the **Barna** Seasoning, we use ultra fine grinders so that required mesh size can be achieved with desired level of oleoresins.

### ■ **QUALITY ASSURANCE**

With having ultra modern food testing facility, we can give "Surety for the Purity". We always try to give the same flavour and taste because we never compromise in our quality.

### ■ **TIMELY DELIVERY**

We understand that food powders are your prime necessity, which can't be replaced every now and then, that's why timely delivery is necessary for your production of materials. We always believe in "Time Factor" that's why, we try to supply your requirements on time to make your production smooth.

## SPRAY DRIED VEGETABLE POWDER.

### ■ Vegetables Powder

Tomato Powder

Tamarind (imli) Powder

Lemon Powder

Mint Powder

Beet root Powder

White Onion Powder

Garlic Powder

Ginger Powder

Soya Powder

Spinach Powder

Green Chilli Powder

Spray Dried Vegetable Powders are one of the most widely used ingredients with applications in many Food Products. It plays an integral role of providing taste, colour, texture and mild acidic profile to the end application.

**Barna** offers a premium range of Tomato Powder made from the freshest and choicest tomatoes using a gentle Spray Drying Process. Our Tomato Powder provides authentic tomato taste which is sweet and savoury in nature and also imparts great texture to the product.

The tastiest foods in the world, at most times, are difficult to make and at times their ingredients are equally hard to get all round the year. We are presenting such ingredients by developing fruit and vegetable powder in their spray dried forms.

Our company “**BARNA FOODS**” was established in 2012 and since then we have been a well-known and leading food processing company. We started our Spray Dried Production plant in 2012 and Dehydrated Production plant in 2015.

We make superior quality of Spray-dried vegetable, dehydrated vegetable powders and flakes, garlic paste, ginger paste and garlic in brine. We also provide a huge variety of Seasoning Masala & Blended Spices. With our aim to be recognized as industry leaders, providing the best quality product and value for money, we are confident of growing and gaining recognition in the food processing industry.

## Vision and mission

To be renowned as a leading industry in the manufacturing of Spray-Dried & Dehydrated vegetables with best quality and customer service.

We want our products to have global quality standards with focus on nutrition and natural ingredients, with competent prices to various destinations domestically and globally.

We want to be an established and popular company with an excellent track record for the best customer satisfaction. We will never compromise on the quality and the services provided to the customer. We will help our customers with an excellent staff who will guide them with their best ideas by keeping in constant touch with their company and informing about the market trends.

## State of Art Manufacturing

- ☑ Our each facility is equipped with latest imported technology equipments specially for cleaning of goods for eliminating impurities & foreign materials.
- ☑ Our cleaning line includes Metal Detector. All our products are scanned through the metal detector to ensure highest quality standards.
- ☑ Food Powders are highly affected by the atmospheric condition, that's why they are hygienically packed so that they can preserve its aroma for long period of time.
