From all of us at Missisquoi Valley Rescue (MVR), THANK YOU! We are proud to be a part of and serve such a great community. This year our communities and fellow Vermonters were tasked dealing with the COVID-19 Pandemic and we will continue the fight throughout 2021. MVR in coordination with the state have been training and preparing our employees to administer the COVID vaccine. This will allow our agency to assist the state in administering this vaccine as it becomes available to the public. We kindly remind everyone to please wear a facial covering and socially distance while out in public. In time we will defeat this.

Even with the restrictions and complications of COVID-19 we were able to certify 320 people in CPR this year. On top of this we received a total of 1,299 calls for service, making this our busiest year in our 44 year history! We wish you all the best in the year ahead! Please check out our website www.mvrvt.org.

Respectfully Submitted,
Joshua W. Ramsdell
