

STUDIO STEWART

MICHELLE STEWART has always had a love of color and texture and fell in love with quilts after seeing the quilt her Great-Grandmother had made when she was a little girl learning how to sew. Michelle didn't learn to quilt until becoming an empty nester in 2006 when a quilt shop opened in her town. It was love at first stitch! This love eventually led to Michelle opening her own tiny quilt shop in Destin, Florida called Chalkboard Quilts. This is where she also discovered a passion for free-motion quilting and teaching.

MICHELLE is a Certified Sew Kind of Wonderful teacher. These rulers and patterns allow simple construction of curved piecing with NO pins and is one of Michelle's favorite techniques.

MICHELLE eventually decided to close Chalkboard Quilts and go back to college to get her degree in Graphic Design, which she completed in 2021. **STUDIO STEWART** was created to allow Michelle to focus on teaching quilting classes and hopefully, showing those who think they can't, that they CAN!
