

## Lineage from Abraham to David

Yes, King David was a direct descendant of Abraham.

The Bible's genealogies, particularly those in the Gospels of Matthew and Luke (which trace the lineage of Jesus), clearly show this connection.

Here's the simplified lineage from Abraham to David:

- **Abraham**
- Isaac
- Jacob (also called Israel)
- Judah (one of Jacob's twelve sons, from whom the tribe of Judah descended)
- Perez
- Hezron
- Ram
- Amminadab
- Nahshon
- Salmon
- Boaz
- Obed
- Jesse
- **David**

So, David belonged to the tribe of Judah, which descended from Abraham through his son Isaac and grandson Jacob.
