COMMUNITY SECURITY AND ORGANIZATIONAL STRUCTURE

All praise is due Allah, The Cherisher and Sustainer of creation, Lord of all the worlds, Most Gracious, The Compassionate, Master of The Day of Judgment.

"O My People, work in your place
Surely I am a worker, so you will
come to know,...
Do you bid me serve others than
Allah, O'ye ignorant ones? And the
Earth beams with the light of it's
Lord, and the Book is laid down,
and the Prophets and the witnesses
are brought up, and Judgment is
and they are not wronged."

This the Bilalian, American "Black" Community is in crucial need of work on the highest level. The work for Moral Reform, Spiritual Upliftment, Economic Development, Environmental Improvement, Educational Excellence, and all around Human Achievement. However, the humble the efforts by many to construct a working system that would resurrect the life of our people has proven to be inconclusive in rendering an effective solution for the complex problems that attack the very fiber of human evolution and procreation. It is now necessary to make bold, new, and daring advances in the arena of Human Sacrifice to overcome the negative forces, influences, and stigma of a vicious degenerative cycle of self-destruction and moral decay. Our streets, parks, schools, businesses, and homes are not secure from the assault of crime and violence. If we as human beings are to survive we must understand that, there is only one solution and the one problem, Unity. Our community has been and is divided into many diverse factions each having it's own ideology, philosophy, methodology, and agenda for confronting the various symptoms of the problem. Yet they all agree that there is a greater need for unity. Now if this is true let us examine the underlying reasons why the desired end result appears unattainable, so difficult, or simply impossible.

I. HISTORICAL PERSPECTIVE:

A. Anthropological Root;

Culture is the characteristics and knowledge of a particular group of people, defined by everything from language, religion, cuisine, social habits, music and arts.

Our Mission is to build a Cultural Institute in the city of Chicago, IL USA with Cultural Awareness Centers throughout the city and suburbs.

Our Vision is to uplift, inspire, motivate the disadvantaged and to develop, promote, encourage and support the social well being of our community.

Our Aim is to help reduce, eliminate and prevent crime & violence by providing an alternative lifestyle through performing arts, educational seminars and community action.

A **mission statement** is a statement of the purpose of a **company, organization or person**; its reason for existing; a written declaration of an organization's core purpose and focus that normally remains unchanged over time.

Properly crafted mission statements (1) serve as filters to separate what is important from what is not, (2) clearly state which markets will be served and how, and (3) communicate a sense of intended direction to the entire organization. A mission is different from a vision in that the former is the cause and the latter is the effect; a mission is something to be accomplished whereas a vision is something to be pursued for that accomplishment. Also called company mission, corporate mission, or corporate purpose.^[1]

The mission statement should guide the actions of the organization, spell out its overall goal, provide a path, and guide **decision-making**. It provides "the framework or context within which the company's strategies are formulated." It is like a goal for what the company wants to do for the world.^[2]

According to **Bart Christopher**,^[3] the commercial mission statement consists of three essential components:

1. **Key market**: Who is your target client or customer (generalize if needed)?

2. Contribution: What product or service do you provide to that client?
3. Distinction: What makes your product or service **unique**, so that the client would choose you?
