

The mid afternoon sun blazed high in the clear blue August sky. Beads of hot perspiration drip from the two naked bodies wrapped like pretzels on a carpet of soft green grass. Ashia moaned quietly as Randy gently sucked ~~her~~ ^{the} hard cherry red nipples of her full ripe size thirty-six inch breasts.

In the distance the pleasant sounds of summer ~~can~~ ^{could} be heard. Birds singing in the trees, a bubbling stream splashing over smooth round stones, crickets chirping in the tall grass and pussy willows. Ashia was going wild with passion. She could feel the warm wetness of preintercourse cum lubricating the lips of her twitching vagina.

Randy felt a thrilling sensation in the pit of his groin as he whispered his intention of ramming his throbbing over sized member up the virgin ass of this beautiful garden nymph. Ashia fingered her own moist cunt, while Randy introduced his middle finger to her pouting anus. It contracted in short spasmodic convulsions as he twisted and sunk his finger deep into her rectum. "Oh k-h, that feels so good" said Ashia having

thoughts of fear and delight as she wondered how in the world Randy was going to even get the enormous head of his dick into her tight little ass. Randy massaged one of her tits while he frantically rotated his finger in and out of her ass making little popping sounds each time he took it out. He looked into her face and could see the expression of sheer ecstasy. Laying on one elbow with her head flung back letting the long black wavy hair, that so generously covered her head, flow down to form a maze of silky threads entwined in the thin blades of grass and wild flowers. Her eyes closed as if sleeping in the intimacy of her own dreams. A sweet smile covered her lips as she rolled her head from side to side in rhythm with their mutual fingers sliding in and out of her holes. Randy leaned until his spine curved to touch her lips so inviting and full. His tongue slid through her slightly parted lips and between her pearly white teeth fluttering and playing like a butterfly with her pink strawberry like tongue. They kissed long and deep enjoying the nectar of each other like a honeybee enjoys a flower in full bloom.

Ashia cocked one leg open and wrapped the other firmly around Randy's hips pulling him into the seductive trap between her thighs. Taking her attention away from the pleasure of her own clitoris she stuck her still wet finger into Randy's waiting asshole. In surprise Randy jumped thrusting his dick pass her slimy slit and between the crack of her ass. They laughed and rolled over and over down the slope of the hill leading to the stream of translucent water so pure gold fish can be seen swimming at the bottom.

Splash! The sudden shock of ice cold water brought a chill that made them both shiver in each others arms. They lay there for a moment without a movement relaxing in the coolness feeling light and free in love with life in harmony with nature and sensuously sexy. Attempting to stand Ashia struggled to gain her balance as she did so she grabbed Randy's hard erect cock with a firm grip causing him to let out a sigh of excitement and anticipation. Stumbling over the stones at the bottom of the stream she finally stands upright with hands on her hips and legs spread wide revealing a mound of curly jet

black pelvic hairs outlining her dripping cunt, Randy's head was positioned right beneath her. She had an impulse for an instant to sit down on his face and drown him in the goodness of her fur covered pussy. Randy remained where he was with a broad grin across his face as if he were reading her mind. He reached up and pulled at the backs of her knees causing her to squat down over his face. His pulsating penis looked so inviting standing like a tower half submerged in the water cum oozing out the orifice, that she not only sat on his face but went one step further leaning over until his dick was perpendicular to her lips. Randy immediately assumed the role as cockhound of the country, and parted the thick outer lips of her aromatic pussy. His tongue easily found her clitoris revealed when he pulled up the hood at the top of her vagina. He began to lick and suck it until it stood erect.

Askia almost choked with the first swallow of the ~~the~~^{2 1/2} inch ~~diameter~~ shaft in her mouth. She slid her tongue up and down the length of Randy's throbbing tool. Then sticking the gland head between her lips she sucked it

until it turned purple and began to swell. Pulling at the huge balls hanging between his legs she made another attempt to devour him totally. Ashia felt a sense of pride as she successfully mouthed his entire "piece of beef". While jacking him off with one hand sucking him off with her mouth, she stuck two fingers of the other hand up his ass. Ashia was lost in a world of sexual fantasy come true. So many times alone in bed she had masturbated to the thought of doing this to the man she loved, but she had never dreamed that she would do such a degrading thing and not feel one ounce of shame or guilt. Randy was keeping himself fully occupied with the hot piece of pussy straddling his face. Ashia began to clench and unclench the muscles of her twat in time with the beat of the job she was doing on him. The action of her quivering vagina made the cum squirt out into Randy's mouth so fast that he had to lick and swallow at a rate that drove Ashia into a frenzy. They were like two runaway locomotives bumping and grinding and steaming away. Ashia stopped suddenly with a high pitched scream.

Her body vibrated all over. Her large pear shaped breast shook like jello. Like a cat her back arched as her orgasm sent wave after wave of joy to every nerve in her body. Seconds later Randy shot a jet of sperm six inches in the air. Ashia seeing this fantastic eruption, went down on him one more time to lap up every drop that didn't get carried away in the rushing current of the stream.

Randy gauged trying to pump every last drop of ^{LOVE JUICE} semen out of his nuts down her throat.

They turned over on the bank of the stream, all moist and wet with matted down grass marking the site of their lustful encounter.

Randy's rod ~~was~~ remained rock hard as Ashia assumed a strange position with one leg bent as if double jointed around the back of her neck. Such a gorgeous neck long smooth and graceful as a swan's.

~~Her~~ Her other leg was extended and spread wide leaving the glistening red cunt gapping open. Randy's eyes bucked upon seeing such a ~~sight~~ fascinating sight. "feeling sincerely freakish" mounted her throwing his left arms around her shoulders as she leaned back getting ^{TO BETTER ACCOMMODATE} as comfortable as possible to receive the

Onslaught of his tremendous phallus.
Slowly inch by inch he inserted his penis
until he penetrated the depths of her soul
trying to drive the message of his love for
Ashia to her heart. Ashia bit her
bottom lip as she absorbed the thrilling
sensations converging on her body at once.
She undid her leg from behind her
neck to fully ^{RECEIVE} accommodate every inch of his cock.
Wrapping her leg around Randy's waist
letting her heels dig into the soft
flesh of his buttocks. Ashia began to
rotate her hip as Randy humped faster
and faster. It seemed as if everything
on earth had stopped suspended motion-
less while they indulged themselves
in their lustful fucking. There could
no longer be heard the sounds of the
country side only the moans and grunts
of ~~the fucking~~ serious love making.

Ashia opened her illustrious brown eyes and viewed the peaceful surroundings. Breathing deep with each penetrating stroke of Randy penis as it slowly ever so slowly glided between the labia majora across her sensitive sensitized clitoris then through the valves of her inner labia stretching the inner walls of her vagina as the firm muscles contracted and vibrated rhythmically help to push and pull Randy's cock along the course of its delightful journey. Up into Ashia's uterus, where by the strange phenomenon of life, love, and creator the total essence of his physical being will be ejaculated into the uterine canal so that billions of minute sperm cells will make their individually independent struggle ~~against~~ against over whelming odds of the natural anti biotic resistance of the female organism, countless bacteria, and the chemically active mucus secreted from the membranes that guard the passage way to the womb. There to compete with the other semen that have successfully survived the

sexual odyssey, for the chance to be the first and only one to fertilize the enormous egg which is like a planet in comparison to the size of the tiny microscopic sperm which is self propelled by a tail like appendage called the flagella which along with the cellular body give the organism the appearance of a tadpole.

Ashia screamed uncomfortably trying to find a new and more exciting ~~position~~ fucking position. Randy's movements were smooth, affectionate, full of passion. He showered her face with tender kisses, stopping momentarily to flick the tip of his tongue deep into her ear and gently nibble at her pretty little ear lobes. After managing to fold her legs back up beneath her and leaning back supporting herself on her elbow arching the lower vertebra of her back, Ashia felt a warm state of relaxation gradually engulf her taut stretching body. As she tilted ~~her~~ her pelvis downward causing Randy's the shaft of Randy's penis to bend upward. Randy sighed aloud in expression of pleasure at the same time Ashia could feel the pressure and friction stimulating her clitoris

sending tinkling currents of erotic vibration
quivering up her abdomen triggering wild
involuntary contractions in her cunt.

A cool breeze blew across the meadow of
tall green grass making it look like a ocean of
flowing waves. A skylark soared high in the
blue sky clipping and swaying in the
wind as free as could be. The
breath taking visual scenery ~~was~~ made Ashia's mind
drift in harmony with the whole of creation
transcending the mounting tension slowly
gradually raising to explode into an
orgasm of intense gratification.
