

November 30, 1981
Chicago, Illinois

Dear Editor,

It is to my Humble Devotion of Duty and Sincere Service towards the Human Cause for social up-liftment within our Urban Environment which I must truthfully acknowledge is in desperate need of Moral Reformation and Spiritual Resurrection from the present conditions that have prevailed as breeding grounds for Crime and Violence that I am addressing.

It is as Our Honorable President of the United States of America, Ronald Reagan stated in his Law Enforcement speech this year in New Orleans he

"It is ultimately a Moral dilemma, one that calls for a moral or, if you will, a spiritual solution," President Reagan speaking to an audience of the International Association of Chiefs of Police.

"In attacking crime, as in dealing with other problems, there is a need of private citizen action."

Now in relationship to an article, "Who runs the Angels? It's double trouble" an exclusive feature story published in November 9, 1981 Chicago Sun Times Newspaper by undercover reporter Michael Corbett, "The next day the third Chapter leader, Munther Shah 32, was expelled after formal hearing." "Shah then sent his top troubleshooter, tough-talking national coordinator his Ever,

to clean up the mess left behind by the Autocratic
Shah, whom recants called "The Dog."

I feel and God surely knows my treatment
in this article was equally as unfair, unjust, and
unnecessary as the disfavorable response
exhibited by the "Head Figures" that represent
the National Guardian Angel Organization. It
must be clarified on the record of public awareness
so that no further insults or abuse of the
powers granted the media destroy the reputation
of innocent community servants and others
so dignified, who are struggling and making
sacrifices for Humanity.

I seek no self-glorification or reward from
this world for my meager efforts to help establish
and maintain the Will of Allah (God) in the land
only His Blessings for righteous works well done.

As for the so-called formal hearing, which was
in reality a kangaroo court of slanderous
saboteurs, and cowards who would not so
much as allow me the right to be present
before my accusers to defend myself against
their wild accusations. The telephone which
I had contributed and is now being billed
for in the amount of over \$200.00 for the month
of ~~Aug~~ September was used to make a 30 min,
long distance call to New York for Curtis Shi
approval to expell me.

I was not ~~as~~ a chapter leader as the article
falsely stated, but the Chicago Chapter Training co-ordinator
my decision was instrumental in the appoint-
ment of the second chapter leader.
Here is a copy of a letter to Curtis Shwa
requesting payment of half the telephone bill
and outlining my role and responsibilities in
regard to the Chicago Chapter of the Guardian
Angels Organization.

Thank you, for taking the time to read
the rebuttle. I'm offering in my own behalf
and in the behalf of all decent citizens who
see a glimmering ray of hope to the crime
problem of this city in the Guardian Angel
Program.

In conclusion I would like to state
publicly that the forces that worked so
viciously to destroy the Guardian Angel
Program in Chicago are the same diabolical
Devils' (doers of evil) whose scheme it is to
snuff out ~~as~~ the life of any movement made
by the average person to generate the positive
expression of their outrage against crime and
violence. Destruction of the Guardian Angel
local is ~~a~~ in fact an act of social abortion.

Because the Guardian Angels Program inspired
the imagination of masses, the silent
majority who are unseen and unheard.
we all must remember that,

"Crime hits Everyone
Everybody oughta
Strike Back!"

in support and Defense of the Law
I give special credit to

Guardian Angel involvement
Guardian Angels Community Relations Program
Guardian Angels Training in General first-
aid and Basic life support, these and
other proposals and am sure would give
the unfavorable opinion held by Chicago's
top City officials and state representatives
the channels for intelligent communication
would be opened by a sincere show
of public concern and a Guardian Angel
image shape by the Guardian Angels
willingness to co-operated and work
within the Honorable and commendable
systems of Crime Fighting that this City
has to offer.

In conclusion I would like to state that
it has been a pleasure and a challenge to
work within such an Organization as the
Guardian Angels. I complement Curtis Shiva
Lisa Evers and all those Guardian Angels
who are making personal sacrifices too
help eliminate Crime and Violence in
the cities of America. And as a special
vote of confidence to outstanding members
of the Chicago Chapter's leadership,
Jeffery Spivey, Daniel De Grazia Casey
Rendon may Allah be with them

and protect them with Peace and Security
And as for Jeffery Ferguson too much
can be said in behalf of his congenial
personality his intelligent delivery of all
the fact in relation to the Snachian
Angels and the need for total community
involvement in Crime Fighting. He has
won the Heart of every one here in
Chicago from the top gang leaders to
the top government officials and the
masses of citizens.

II. Now while being very knowledgeable in the established city structure I aided Jeffery Ferguson in contacting various community groups, radio stations, and accompanying him into the various areas of the city.

A. Jeffery Ferguson successfully established the Chicago Chapter and I was left too the administrative duties of setting up a staff which was composed of approved training instructors and volunteers to work in Co-Operation at the Training Center 9547 So. Jeffery and the Head Quarters 5316 N. Sheridan

B. At the time that The ~~Nation~~ Regional Training Co-Ordinator, Mike Robinson arrived from Philadelphia the training program was in smooth operation, in with of course the disapproval of a dissatisfied few who as I am sure did not even attempt to help correct some any of their grievances through working within the structure of this city's Guardian Angel channels.

C. August 16, 1981 Mike Robinson arrive and as entrance of key personnel meet him at Midway airport all Guardian Angel Records were given to
