Mandatory Vaccination Statement

Living Freedom Ministries believes it is the individual's (and only the individual's) responsibility to maintain and manage their own body.

Living Freedom Ministries also believes that free will is essential to maintaining a positive relationship with God.

Living Freedom Ministries also believes that God is the ultimate Engineer, and natural immunity is his creation. Therapies, (especially Experimental Gene Therapies that manipulate RNA or DNA) are an attempt to force our will over God's will. We believe this to be a sin.

Therefore, the practice of forced, mandatory, or coerced vaccination is absolutely against our beliefs.
