## Teamwork and Leadership Lead to Academic Achievements

Over the past eight months, the Education team at Woodstock has been performing at exceptionally high levels in enabling students to earn General Education Diplomas, on-line High School Diplomas and enhanced TABE scores.

In five of the past eight months during the current program year, the **HSD/GED Program Team** has seen achievements of awards which have been unparalleled at Woodstock.

At the same time, the **Applied Academics Team** has worked closely with students, efforts which have led to increased literacy and math competency scores at a pace exceeding twice the center's goals for academic improvements with respect to TABE gains.

All the while, the HSD/GED Program Team and Applied Academic Team have received the support of Career Education leadership, along with the Scheduling Program and Driver's Education program...each of which serves to place students in the appropriate academic programs at the appropriate time as well as to further enable students to achieve skills designed to enhance their personal and career goals.

It is truly a team effort which has led to the tremendous success of Woodstock students over the past eight months.

Congratulations to each member of the HSD/GED and Applied Academics Team, Career Education Leadership, Accountability/Scheduling and Driver's Education for your outstanding achievement and contributions!

**Leadership and Support Efforts** (from left): **Audrey Artis** - Career Education Manager; **Patricia Brown** - Driver's Education; and **Natalie Lyons** - Accountability/Scheduling Coordinator.
