Dear Dr. Artis, Ed.D., YOURpath staff, Associates & Partners,

My name is Daniela Andujar and I have been out of school for 7 years now. Due to some personal issues, I was unable to obtain my High School Diploma. I am now 23 years old, and I wanted nothing more than to obtain my High School Diploma now that I am at a space where I can dedicate my full attention. YOURpath has changed my life in a way I never thought possible. Financially, I was not able to pay for testing, and YOURpath invested in my success and paid for all my testing fees. Dr. Artis provided such faith in me and seeing her take that leap of faith pushed me even harder. Now I can officially say that I am a High School Graduate and now have the opportunity to enroll in college. I am now interested in chasing my Associates in Criminal Justice and have been accepted into Montgomery County Community College. My dream is to become a police officer and eventually become a Detective.
