Dear Dr.Artis & YOURpath staff

I just want to say how extremely grateful I found this program, and how this program has truly helped change my life and gave me hope and more to look forward too. I have been out of a school for 10 years so going back I knew it would be a challenge. I especially want to give thanks to Dr.Artis for always being very hands on, giving feedback so I knew what I had to work on to succeed and helping me learn to be more disciplined and responsible. Now that I have my diploma I plan on going to school for nursing since that has always been a passion of mine. This have been a journey for me and I could not have asked for a better program to complete this journey. Thank you everyone so much for everything! Keep doing the amazing work, helping others believe in themselves and keep striving for a better future.

Thank you all for all the amazing work that you do!
