

WEDNESDAY'S MATH HELP SESSION!

There is a **"Math Help"** session scheduled for Wednesday, May 20th at 3:00 PM. If you are preparing to test in math, but have some difficulty with solving math problems, you should make plans to take advantage of these sessions. Remember, we do not want to run from our challenges, but instead face them head on in order to overcome them. Keep in mind that practice makes better, so the more you practice math, the more you'll get better at performing math problems.

A MOMENT OF GRATITUDE!

We are grateful to our tutors who have dedicated their time and knowledge to assist our students in achieving their academic and career goals. **A special thanks to Mr. Pablo** who has conducted three sessions already. He has tutored our students in Reading, Writing and Mathematics. Our students' feedback has been positive with comments such as, "He is patient. He seeks to make sure that students understand before moving forward. He is professional. etc." YOURpath aims to foster positive Instructor-student relations, and it is good to receive two-way communication that supports this goal. Again, thank you to all of our tutors!

MANDATORY COHORT MEETING

YOURpath's next cohort meeting is scheduled for Sunday, May 24, 2020 at 4PM. It is good to have received a few emails inquiring about our cohort schedule. Let's keep in mind that all cohort meetings are mandatory. We should all make plans to be in attendance. If you are unable to attend, please email YOURpath's office. We will see everyone at the meeting! Have a safe and positive study week!
