

PROJECT COMMUNITY CAPITAL®

Using social capital to uplift our communities

Employment opportunities never find the right people, even as ready-to-work candidates sit, unemployed, in low-income communities... we connect candidates to entry-level employment as the gateway to a full fledged career

WE AIM TO CHANGE THE LIVES OF UNDERSERVED RESIDENTS, ONE BY ONE, AND MAKE A REAL DIFFERENCE IN LOW-INCOME COMMUNITIES.

Cities all over the country have unemployment problems, mostly because of a lack of innovative problem-solving methods in the employment sphere. Project Community Capital® has an employee retention rate of 94%-98% on past projects and works not only to get candidates employed, but to ensure they stay employed.

WHAT WE DO

1. *Outreach:* PCC performs outreach through social media and in communities to find those Ready-To-Work candidates.

2. *Vet:* PCC interviews and thoroughly vets candidates in order to ensure success in whatever position they may obtain.

3. *Connect:* PCC connects those ready-to-work candidates with employers, government agencies, corporations and more.

4. *Refer:* PCC doesn't leave those not ready-to-work candidates hanging, they are referred to not profit partners that can aid in agumenting job performance.

INNOVATION

Project Community Capital® is constantly innovating, and the platform prizes our use of technology, our bold tactics in eliminating employment barriers, and our collective impact model as the boldest innovations.
