

## Scenario #6: HAZMAT

On Today's date and time, a traffic accident occurred involving a large panel truck and three passenger vehicles. The accident occurred in downtown SLUDMAR at Washington Avenue and Kilometro Calle. The unmarked panel truck struck the three cars while going through a red-light and overturned. The truck was carrying ten 50 gallon drums in the back. The drums fell into the street and began leaking a yellow fluid.

The lone passengers in each of two of the vehicles were killed instantly. The third vehicle swerved onto the side walk crashing into a bus stop. A passenger in the vehicle was ejected and died at the scene. The driver was trapped in inside. Several bystanders at the bus-stop were injured.

The driver and a passenger from the panel truck were seen climbing out of the vehicle and running away. A witness reported that one of the occupants brandished weapon. An examination of the interior of the truck produced the several interior and exterior photographs of the SLUDMAR city hall.

Both fire and police are on scene and are beginning to organize their response.
