O Manjushri Lama Tsongkhapa, Second Buddha, and Lineage Sons!
As bright as sunshine, you have clearly elucidated
The Sutra and Tantra discourses of the peerless omniscient Buddha.
Kindly bless me to speak the Sage's truthful words.

In the mandala of innumerable Dharma Holders (Tenzin), you are a
brilliant gem.
You protect Dharma and lead sentient beings - You are the one who
has actualized the realities of all phenomena (Jangchub).
You are endowed with gifts to spread the Dharma of scriptures and
the Dharma of realizations (Chospel).
Please live long as a guide for an ocean of sentient beings.

You are a snow lion of Buddha Dharma.
The back of your neck is covered by the rich mane of accomplished
study, contemplation, meditation, teaching, debate, and composition.
Your claws are marked with the sharpness of scriptural and analytical
reasoning.
Please live long as the King of the snow mountain that is Buddha
Dharma.

In short, your liberating life story and all the deeds of your predecessor,
Are the source of Dharma, joy, and benefit sentient beings.
While streaming the spontaneous blessing of your predecessor,
Please live long as a sublime refuge for the fortunate devotees.

By virtue of the Venerable, Sublime Guru's altruism and aspirational
prayers,
Conjoined with the pure bond and faith of the blessed disciples,
And by the power of the Dharma protectors,
May we swiftly realize our dedication prayers.
