

## New Jersey FLEX-TAB (FT) BARRIER MARKERS

The **Flex-Tab** body will retain its original shape after being hit repeatedly.  
The marker body is made of rigid PVC with co-extruded 80 durometer polyurethane acting as a working hinge.

NEW hinge design - material recesses into the base & body with added undercuts, further strengthening the bond (between hinge & body)

**Flex-Tab** Markers shall meet the minimum specific intensity requirements as follows

### Reflective Sheeting Available

| ASTM D-4956 Spec | Traffic/Work Zone Colors                                                                                 |
|------------------|----------------------------------------------------------------------------------------------------------|
